# AUTHOR INDEX FOR VOLUME 52, 1981

## A

Aalbers, J. G., 1130
Aberle, E. D., 530, 748, 757
Acker, W. A., 69
Addis, P. B., 278
Adelakoun, V., 813
Allen, C. D., 1298
Allen, D. M., 1294
Allen, L. B., 1085
Anderson, G. D., 138, 144
Anthony, J. P., 1219
Arakelian, M. C., 1306
Armbruster, S. L., 447
Armstrong, W. D., 1
Arthur, R. D., 696

## B

Bae, Dong Ho, 1371
Baik, D. H., 1280
Bailey, Curtiss M., 1244
Bajjalieh, N. L., 101
Baker, J. L., 1070
Barber, K. A., 218
Barnes, R. F., 1205
Barria, Nelson, 729, 739
Bartlett, H. S., 1060
Bartley, E. E., 418, 1150
Bauman, L. F., 8
Baxter, J. C., 108
Beal, W. E., 567
Beitz, Donald C., 75
Bellido, M. Martin, 455
Belyea, R. L., 1417
Benyshek, L. L., 37, 587
Berger, J.C.A., 468, 1388, 1404
Berger, L. L., 138, 144
Berry, B. W., 1034
Blackwell, R. L., 475
Blecha, Frank, 594
Block, Elliot, 1164
Boer, H., 1091
Boling, James A., 382, 710
Bondioli, Kenneth, 115
Booram, C. V., 1240
Boylan, W. J., 989, 998
Bradford, G. E., 729, 739
Brinks, J. S., 232, 1253, 1262, 1272
Britton, R. A., 1376
Broderick, Glen A., 292
Brooks, C. C., 1085
Brown, D. E., 101, 1114
Brown, J. J., 359
Brown, L. J., 1298, 1306
Buckner, R. C., 710
Bull, L. S., 413, 710, 857
Burbank, D. K., 14
Burdette, J. H., 69
Burton, G. W., 725
Busboom, J. R., 83
Bush, L. P., 710
Butcher, R. L., 1122
Butts, W. T., Jr., 836

Call, E. P., 1150
Camp, T. H., 1219
Campbell, C. M., 867
Campion, Dennis R., 1014
Carpenter, Z. L., 703
Carter, J. H., 1085
Cassens, R. G., 1430
Chabot, R. C., 1197
Chai, E. Y., 1298
Chenette, C. G., 483
Chew, B. P., 346
Christenson, R. K., 535, 821
Christiansen, M. L., 363, 1183
Chrystall, B. B., 285
Clawson, A. J., 1
Colenbrander, V. F., 8
Convey, E. M., 1137
Cooper, B. S., 601, 611
Corley, J. R., 769
Cornelius, S. G., 505
Cornman, A. W., 1233
Couture, Y., 813
Cox, N. M., 340, 587
Craig, W. Michael, 292
Crenshaw, J. D., 1343
Crenshaw, T. D., 1319
Crickenberger, R. G., 677
Crockett, J. R., 1007
Cromwell, G. L., 241, 323
Cross, H. R., 703, 1034
Crouse, J. A., 1272
Crouse, J. D., 83

## D

Dailey, R. A., 1122
D'Amico, M. Frances, 346
Darmadja, D., 794
da Rosa, G. O., 1098
Davis, D. L., 1450
Davis, S. L., 1350
De Blas, J. C., 1225
de Felicio, P. E., 1294
De Lange, P.G.B., 1091
de Lima, F. Ribeiro, 241
Dennis, S. M., 418
Devine, C. E., 285
Dickerson, G. E., 1253, 1262, 1272
Dimarco, Nancy M., 75
Downer, J. V., 413
Drewry, K. J., 197
Dufour, J. J., 813
Duhaime, D. J., 427
Dunlap, S. E., 340, 587
Dunn, T. G., 1106
Duquette, Paul F., 635
Dwyer, Don D., 650
Dziuk, Phillip J., 831

## E

Edgerton, Lee A., 323
Edwards, Ronnie L., 703
Elliott, D. O., 130
El Tayeb, A. E., 959
Ely, D. G., 1019, 1026
England, B. G., 1457
Erb, R. E., 346
Ercanbrack, S. K., 977
Estell, R. E., II, 836

## F

Fahey, G. C., Jr., 138, 144
Ferrell, C. L., 83
Field, R. A., 83
Finkner, M. D., 455
First, N. L., 788, 794, 1360
Fogg, T. J., 1298
Fonnesbeck, P. V., 363, 1183
Fontenot, J. P., 468, 1233, 1388, 1404
Forrest, D. W., 1106
Foster, D. B., 802
Fox, J. D., 413, 1026
Fraga, Maria J., 1225
Frahm, R. R., 447, 483, 764
Francis, S. J., 1294
Frank, G. R., 101
Funnell, H. S., 1312
Fuquay, John, 164

## G

Galvez, J. G., 1225
Galyean, M. L., 1197
Garcia, Jose A., 134
Ginther, O. J., 119
Goodrich, R. D., 377
Grammer, Jean, 115
Gregory, K. E., 1286
Gunsett, F. C., 1280
Guthrie, H. D., 330

## H

Haaland, G. L., 391, 696
Hahn, G. Leroy, 175
Hale, O. M., 316, 1240
Han, D. K., 802
Hand, R. J., 427
Handlin, D. L., 14
Hansel, W., 567
Harris, L. E., 363, 1183
Harrison, P. C., 1114
Hatton, R. H., 710
Hauser, E. R., 1280, 1457
Hausler, C. L., 688
Hausman, G. J., 1442
Hawk, H. W., 601, 611
Heide, E. K., 427
Hemken, R. W., 413, 710, 857
Henderson, H. E., 677
Hinklemann, K. H., 1085
Hitchcock, J. P., 312
Ho-a, E. B., 867
Hodson, H. H., Jr., 688
Hohenboken, William D., 265
Holloway, J. W., 836
Horn, G. W., 447
Horton, G.M.J., 1143
Hunsley, R. E., 757
Hunter, A. G., 575
Huntington, G. B., 1376

## I

Inskeep, E. K., 1122
Ireland, J. J., 580
Ishizaki, S. M., 867
Ivan, M., 849

## J

Jensen, A. H., 101
Johnson, D. E., 108, 391, 696
Johnson, L. A., 1130
Johnson, R. K., 18, 26, 906
Jorgensen, N. A., 1170, 1177
Judge, M. D., 530, 757

## K

Kaltenbach, C. C., 1106
Kastner, C. L., 1294
Kauffman, R. G., 1430, 1437
Keith, E. A., 8
Kelley, Keith W., 594
Kemp, J. D., 1019, 1026
Kesner, J. S., 1137
Kienholz, E. W., 108
Kiesling, H. E., 959
Kilmer, L. H., 1164
King, G. J., 551
Kirton, A. H., 285
Kiser, T. E., 340, 587
Klaver, J., 1091
Knabe, D. A., 557, 769
Knight, A. D., 977
Koenig, Jean M., 382
Koger, M., 1007
Kornegay, E. T., 14, 468, 1041, 1049, 1060, 1070, 1085, 1388, 1404
Krabill, L. F., 69
Kraeling, R. R., 340, 587, 831, 1014
Krueger, W. C., 210
Ku, P. K., 312, 783
Kuhlers, D. L., 500
Kokoyi, E. A., 278
Kuzan, Frank, 115

## L

Lambert, B. W., 764
Lamm, W. Dennis, 954, 1233
Lane, Joe, 655
Lane, S. F., 463
LaVoie, Verne, 802
Levan, P. J., 218
Lewis, A. J., 1319, 1330, 1343
Lewis, G. S., 1122
Lewis, P. E., 463
Linton, Arthur C., 232
Lishman, A. W., 1122

Zamet, Claudie N., 346
Zebrowska, Teresa, 769
Ziegler, J. H., 218
Zinn, R. A., 857

# SUBJECT INDEX FOR VOLUME 52, 1981

## A

Adipose tissue cellularity
  Skeletal muscle and, in runt and normal birth weight swine, 748
Adrenal-gonad interactions in cattle
  Corpus luteum function in intact and adrenalectomized heifers, 1098
Adrenocorticotropic hormone administration
  Cortisol and luteinizing hormone after, to postpartum beef cows, 587
Age, effects of
  On lipogenesis and lipolysis in lean and obese swine, 505
Age and fatness
  Relationship of body measurements, weight, to size and performance in beef cattle, 493
Alfalfa, dehydrated
  Nitrogen sources for growing cattle fed barley and either wheat straw or, 1143
Alfalfa leaves and stems
  Preparation and digestibility of, marked with gold and chromium, 1417
Alkali treatment of cereal grains
  I. *In situ* and *in vitro* evaluation, 138
  II. Digestion, ruminal measurements and feedlot performance, 144
Allyl trenbolone
  Sychronization of estrus in gilts with,: fecundity after natural service and insemination with frozen semen, 130
Allyl trenbolone (RU-2267)
  Synchronization of estrus in swine with, 831
Amino acids
  Apparent digestibility of, and nitrogen in three cottonseed meals and one soybean meal, 769
Amino acids in sheep, infusions of
  Plasma amino acid response to abomasal, 1421
Ammonium polyphosphate
  As a source of phosphorus and nonprotein nitrogen for monogastrics, 1
Angus and milking Shorthorn parentage, cows of
  Mature weight, maturation rate, maternal performance and their interrelationships in purebred and crossbred, 51
Animal industry, the
  Rangeland policy impact on, 655
Animal production
  Cold stress as it affects, 154
  Heat stress as it affects, 164
Animal stress
  What is, and how is it measured?, 150
Animal wastes, feeding
  Research needs on the utilization aspects of, 902
Animals, crossbreeding experiments with
  Estimation of direct and maternal additive and heterotic effects from, 44
Antibiotics
  Effects of copper, with and without ferrous sulfide, and, on the performance of pigs, 241
Anti-quality factors
  Interaction of environmental temperature and, on the severity of summer fescue toxicosis, 710
Artificial insemination
  Use of boar spermatozoa for, I. Fertilizing capacity of fresh and frozen spermatozoa in sows on 36 farms, 1130
Ash, acid insoluble
  As a marker of digestibility for sheep fed corn plants or hay and for lactating dairy cattle fed hay *ad libitum*, 1164
Awards
  Southern section ASAS
    1981 Distinguished Extension Award, 1478
    1981 Distinguished Service Award, 1479
    1981 Paper Winners, 1477
  Western section ASAS
    1980 Distinguished Service Award, 443
    1980 Young Animal Scientist Award, 442

## B

Backfat thickness
  Estimating lean in pork carcasses differing in, 703
Barley
  Nitrogen sources for growing cattle fed, and either wheat straw or dehydrated alfalfa, 1143
Barrows, boars and gilts
  Phosphorus in swine. I. Influence of dietary calcium and phosphorus levels and growth rate on feedlot performance of, 1041
  Phosphorus in swine. II. Influence of dietary calcium and phosphorus levels and growth rate on serum minerals, soundness scores and bone development in, 1049
  Phosphorus in swine. III. Influence of dietary calcium and phosphorus levels and growth rate on mineral content of hair from, 1060
  Phosphorus in swine. V. Interrelationships of various feedlot performance, serum mineral, structural soundness and bone parameters in, 1085
Beef breeds and crosses, divergent
  Calf survival and preweaning growth in, 1244
Beef bulls, yearling
  Evaluation of adjusted net $^{40}$K count as a predictor of muscle mass in, 764
Beef calves, early- and normal-weaned
  Performance of, and their dams, 715
Beef cattle
  Nutritive value of protected tallow product fed with hay to, as assessed by respiration calorimetry, 391
  Relationship of body measurements, weight, age and fatness to size and performance in, 493
Beef cattle, large dairy or small
  Muscle, fat and bone in serially slaughtered, fed corn silage diets in one or two locations, 512
Beef cattle growth traits
  Monte Carlo study of within-herd multiple trait evaluation of, 248

Beef cows
Cortisol and luteinizing hormone after adrenocorticotropic hormone administration to postpartum, 587
Suckling effect on estrus and blood plasma progesterone in postpartum, 802
Beef cows, gestating
Compositional changes in corn crop residues grazed by, 954
Beef cows and sheep
Mineral status of, on spring pasture fertilized with kieserite, 969
Beef *longissimus* muscle shear force values
The effect of coring method on, 1294
Beef steers
Comparison between limestones and cement kiln dusts of similar rates of reactivity used in high concentrate diets for, 873
Effect of level of calcium and rate of reactivity of calcitic limestones on utilization of high concentrate diets by, 882
Evaluation of Tifton 44, Coastal and Callie bermudagrass as pasture for growing, 725
Variability in response by, to cement kiln dust in high concentrate diets, 618
Beef steers, rumen parameters of
Effects of sodium bentonite, buffer salts, cement kiln dust and clinoptilolite on, fed a high roughage diet, 1197
Bermudagrass, Coastal and Callie
Evaluation of Tifton 44 and, as pasture for growing beef steers, 725
Bioassay of forage quality, a
The weanling meadow vole as, of temperature and tropical grasses, 1205
Birth weight, pig
Effect of doubling daily energy inake during the last two weeks of pregnancy on, survival and weaning weight, 535
Blastocysts, bovine
Luteotropic effects of, 567
Blastocysts *in vitro*
Effects of serum on swine morulae and, 1450
Blood flow, uterine
Central sympathetic control of, during acute heat stress, 1114
Boar epididymal luminal fluids
Concentrations of sperm, protein and a sperm membrane glycoprotein within, 575
Boar spermatozoa, use of
For artificial insemination. I. Fertilizing capacity of fresh and frozen spermatozoa in sows on 36 farms, 1130
Boars
Phosphorus in swine. IV. Influence of dietary calcium and phosphorus and protein levels on feedlot performance, serum minerals, bone development and soundness scores in, 1070
Body measurements, relationship of
Weight, age and fatness to size and performance in beef cattle, 493
Bone
Muscle, fat and, in serially slaughtered large dairy or small beef cattle fed corn or corn silage diets in one of two locations, 512
Bone parameters of swine
Effect of level of dietary calcium-phosphorus during growth and gestation on performance, blood and, 1330
Bones in swine, mechanical properties of various
Influence of age, sex and calcium and phosphorus levels on the, 1319
Border Leicester and Finnsheep crosses
I. Survivial, growth and carcass traits of $F_1$ lambs, 1253
II. Productivity of $F_1$ ewes, 1262
III. Market lamb production from crossbred ewes, 1272
Bovine
Effect of dietary iodine on tissue iodine content in the, 413
Bovine blastocysts
Luteotropic effects of, 567
Bovine ovarian follicles
Growth and replacement of the, during the estrous cycle, 813
Breed, influence of
Calving season, supplementation and year on productivity of range cows, 455
Breeding
Carcass and meat characteristics of crossbred lambs with and without Finnish Landrace, 1026
Brown midrib-three
Performance of feedlot cattle fed, or normal corn silage with various levels of additional corn grain, 8
Buffer salts
Effects of sodium bentonite, cement kiln dust and clinoptilolite on rumen parameters of beef steers fed a high roughage diet, 1197
Bulls, Holstein
Serum testosterone response in, after administration of luteinizing hormone, 340

## C

Cadmium sewage sludge, high
Heavy metal retention in tissues of cattle fed, 108
Calcium, level of
Effect of, and rate of reactivity of calcitic limestones on utilization of high concentrate diets by beef steers, 882
Calcium and phosphorus levels
Influence of age, sex and, on the mechanical properties of various bones in swine, 1319
Calcium chloride
As a regulator of feed intake and weight gain by pigs, 778
Calcium-phosphorus, dietary
Effect of level of, during growth and gestation on calcium-phosphorus balance and reproductive performance of first-litter sows, 1343
Effect of level of, during growth and gestation on performance, blood and bone parameters of swine, 1330
Calf survival
And preweaning growth in divergent beef breeds and crosses, 1244
Calves, performance of feeder
Transit factors affecting shrink, shipping fever and subsequent, 1219
Calves, stressed
Millet and alfalfa hays alone and in combination with high energy diet for receiving, 939

Calving season
Influence of breed, supplementation and year on productivity of range cows, 455
Captan, influence of
On *in vitro* and *in vivo* digestibility of forage, 377
Carcass and meat characteristics
Of crossbred lambs with and without Finnish Landrace breeding, 1026
Carcass characteristics
Postweaning growth and, of various frame size steers on forage systems, 232
Carcass composition
Effect of plane of nutrition on, and the palatability of pasture-fed lamb, 285
Influence of sow dietary lipids and choline on piglet survival, milk and, 542
Carcass traits
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. I. Effects of slaughter weight and diet energy on, 218
Cattle
Efficiency of mastication in relation to hay intake by, 1371
Prevention of induced lactic acidosis in, by thiopeptin, 635
Cattle, a roughage substitute for
Rumen metabolism and absorption of a $^{14}$C-labeled elastometric copolymer and its value as, 1150
Cattle, adipose tissue of
Effect of fasting on free fatty acid, glycerol and cholesterol concentrations in blood plasma and lipoprotein lipase activity in, 75
Cattle, adrenal-gonad interaction in
Corpus luteum function in intact and adrenalectomized heifers, 1098
Cattle, Boran and Sahiwal breeds of
Characterization of the, for economic characters, 1286
Cattle, double muscling in
Biological detection of heterozygosity for,
I. Terminal innervation ratio, 1430
II. Thyroid hormone concentrations, 1437
Cattle, growing
Nitrogen sources for, fed barley and either wheat straw or dehydrated alfalfa, 1143
Cattle, inbred lines of Hereford
Comparison of two- and three-way rotational crossing and synthetic variety production involving.: preweaning and weaning traits, 475
Cattle, intestinal maltase and pH in
Effect of dietary corn starch intake on pancreatic amylase and, 1177
Cattle, starch digestion in
Effect of dietary cornstarch intake on ruminal, small intestinal and large intestinal, 1170
Cattle, tissues of
Heavy metal retention in, fed high cadmium sewage sludge, 108
Cattle, wheat pasture stocker
Effect of monensin on ruminal fermentation, forage intake and weight gains of, 447
Cattle breeds of British, European and Zebu origin
Additive genetic and heterosis effects in crosses among, 1007
Cattle fed high forage diets
Growth, feed efficiency and metabolite concentrations of, with lasalocid or monensin supplements, 427
Cattle waste, ensiling
With rye straw as a diet supplement for ruminants, 1233
Cattle with controlled weight gain
Palatability and muscle characteristics of,: time on a high energy diet, 757
Cement kiln dust(s)
Comparison between limestones and, of similar rates of reactivity used in high concentrate diets for beef steers, 873
Effects of sodium bentonite, buffer salts, and clinoptilolite on rumen parameters of beef steers fed a high roughage diet, 1197
Variability in response by beef steers to, in high concentrate diets, 618
Cereal grains, alkali treatment of
I. *In situ* and *in vitro* evaluation, 138
II. Digestion, ruminal measurements and feedlot performance, 144
Cholesterol concentrations in blood plasma
Effect of fasting on free fatty acid, glycerol and, and lipoprotein lipase activity in adipose tissue of cattle, 75
Choline
The influence of sow dietary lipids and, on piglet survival, milk and carcass composition, 542
Chymotrypsin development
Trypsin and, in the neonatal lamb, 359
Citric acid
Renal clearance of magnesium in sheep given, and(or) potassium chloride, 895
$^{14}$C-labeled elastometric copolymer, a
Rumen metabolism and, and its value as a roughage substitute for cattle, 1150
Clinoptilolite
Effects of sodium bentonite, buffer salts, cement kiln dust and, on rumen parameters of beef steers fed a high roughage diet, 1197
Coastal bermudagrass pastures
Winter stocking-summer finishing systems using rye, Kentucky-31 tall fescue and, 945
Cold stress
Reduces the acquisition of colostral immunoglobulin in piglets, 594
Collagen, bovine muscle
Effect of electrical stimulation on thermal shrinkage temperature of, 530
Collection method, influence of
On nutrient content, mineral composition and *in vitro* digestibility of kikuyugrass pasture, 867
Collections, 2- *versus* 6-day
Effect of, for the determination of ruminal and postruminal digestion in steers, 134
Compositional changes
In corn residues grazed by gestating beef cows, 954
Confinement
Influence of, and season of the year on puberty and estrous activity of gilts, 821
Control, central sympathetic
Of uterine blood flow during acute heat stress, 1114
Control groups
Weaning trait comparisons among inbred lines and selected noninbred and randomly bred, of Rambouillet, Targhee and Columbia sheep, 977
Cooking, constant temperature

Constant time *versus*, of beef loin steaks as influenced by marbling characteristics and intramuscular fat content, 1034
Copper, effects of
With and without ferrous sulfide, and antibiotics on the performance of pigs, 241
Coring method, the effect of
On beef *longissimus* muscle shear force values, 1294
Corn, moldy
In diets of swine, 1312
Corn, replacement of
Effect of, by protected tallow in a cattle finishing diet on animal performance and composition, 696
Corn crop residues
Compositional changes in, grazed by gestating beef cows, 954
Corn grain
Feeding swine waste. I. Fermentation characteristics of swine waste ensiled with ground hay or ground, 1388
Feeding swine waste. II. Nitrogen utilization, digestibility and palatability of ensiled swine waste and orchardgrass hay or, fed to sheep, 1404
Feeding swine waste. III. Digestibility, nitrogen utilization and palatability of ensiled swine waste and, or orchardgrass hay fed to swine, 468
Performance of feedlot cattle fed brown midrib-three or normal corn silage with various levels of additional, 8
Corn or corn silage diets
Muscle, fat and bone in serially slaughtered large dairy or small beef cattle fed corn or corn silage diets in one of two locations, 512
Corn silage, normal
Performance of feedlot cattle fed brown midrib-three or, with various levels of additional corn grain, 8
Corpora lutea, induced
Factors affecting function of, in postpartum anestrous ewes, 1122
Corpus luteum function
Adrenal-gonad interactions in cattle., in intact and adrenalectomized heifers, 1098
Corpus luteum-bearing ovary, removal of
Sperm death and inhibition of sperm transport in the cervix of ewes in estrus after, 611
Cortisol
And luteinizing hormone after adrenocorticotropic hormone administration to postpartum beef cows, 587
Cottonseed meal protein
Effect of heat treatment on true digestibility in the rat, *in vitro* proteolysis and available lysine content of, 292
Cow, the cycling
Ovarian function in: relationship between gonadotropin binding to theca and granulosa and steroidogenesis in individual follicles, 1457
Cows, purebred and crossbred
Mature weight, maturation rate, maternal performance and their interrelationships in, of Angus and milking Shorthorn parentage, 51
Cows, range
Influence of breed, calving season, supplementation and year on productivity of, 455
Cows, two-breed cross
Yield and composition of milk from various, 483
Cows and ewes, ovariectomized
Estriol and estradiol-17α-induced release in, 1106
Crossbreeding experiments with animals
Estimation of direct and maternal additive and heterotic effects from, 44
Crossbreeding in swine
Experimental results, 906
Crosses, terminal
Porcine stress syndrome and postmortem muscle characteristics of two purebreds and three specific, 278
Crosses among cattle breeds
Additive genetic and heterosis effects in, of British, European and Zebu origin, 1007
Cull beans
Reconstituted Kentucky bluegrass straw. II. Ensiled with hydroxide and soybean meal, or peas, 406

## D

Dairy cattle, lactating
Acid insoluble ash as a marker of digestibility for sheep fed corn plants or hay and for, fed hay *ad libitum*, 1164
Dairy cows
Variables associated with peripartum traits in. VIII. Hormonal profiles associated with dystocia, 346
Dams
Performance of early- and normal-weaned beef calves and their, 715
Dexamethasone-induced parturition in swine
Effect of indomethacin on, 788
Diet, a cattle finishing
Effect of replacement of corn by protected tallow in, on animal performance and compositon, 696
Diet, a high roughage
Effect of sodium bentonite, buffer salts, cement kiln dust and clinoptilolite on rumen parameters of beef steers fed, 1197
Diet, effect of
On feed intake and growth of rabbits from weaning to slaughter at different ages and weights, 1225
Diet, high energy
Millet and alfalfa hays alone and in combination with, for receiving stressed calves, 939
Diet, time on a high energy
Palatability and muscle characteristics of cattle with controlled weight gain:, 757
Diet energy density
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. I. Effects of slaughter weight and, on carcass traits, 218
Diet supplement for ruminants, a
Ensiling cattle waste with rye straw as, 1233
Dietary calcium and phosphorus and protein levels
Phosphorus in swine. IV. Influence of, on feedlot performance, serum minerals, bone development and soundness scores in boars, 1070
Dietary calcium and phosphorus levels and growth rate

Phosphorus in swine. I. Influence of, on feedlot performance of barrows, gilts and boars, 1041
Phosphorus in swine. II. Influence of, on serum minerals, soundness scores and bone development in barrows, gilts and boars, 1049
Phosphorus in swine. III. Influence of, on mineral content of hair from gilts, barrows and boars, 1060
Dietary cornstarch intake
Effect of, on pancreatic amylase and intestinal maltase and pH in cattle, 1177
Effect of, on ruminal, small intestinal and large intestinal starch digestion in cattle, 1170
Diets, corn or corn silage
Muscle, fat and bone in serially slaughtered large dairy or small beef cattle fed corn or corn silage diets in one of two locations, 512
Diets, high concentrate
Comparison between limestones and cement kiln dusts of similar rates of reactivity used in, for beef steers, 873
Effect of level of calcium and rate of reactivity of calcitic limestones on utilization of, by beef steers, 882
Variability in response by beef steers to cement kiln dust in, 618
Diets, low to high concentrate
Feed intake, rumen fluid and turnover, nitrogen and mineral balance and acid-base status of wethers changed from, 1376
Diets, normal and high fiber
Postweaning performance of crossbred pigs fed, 197
Diets, wet *versus* dry
For weaned pigs, 14
Diets, wheat shorts in
Of gestating swine, 551
Diets of swine
Moldy corn in, 1312
Digestibility
Feeding swine waste. III., nitrogen utilization and palatability of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Relationship between fecal components and forage consumption and, 836
Digestibility, a marker of
Acid insoluble ash as, for sheep fed corn plants of hay and for lactating dairy cattle fed hay *ad libitum*, 1164
Digestibility, factors affecting
Of nutrients by sheep, 363
Digestibility, *in vitro*
Influence of collection method on nutrient content, mineral composition and, of kikuyugrass pasture, 867
Digestibility in the rat, true
Effect of heat treatment on, *in vitro* proteolysis and available lysine content of cottonseed meal protein, 292
Digestibility of nutrients
Effect of sorghum particle size on, at the terminal ileum and over the total digestive tract of growing-finishing pigs, 557
Digestion
Alkali treatment of cereal grains. II., ruminal measurements and feedlot performance, 144
Digestion in steers, ruminal and postruminal
Effect of 2- *versus* 6-day collections for the determination of, 134
Distinguished Extension Award, 1981
Southern section ASAS, 1478
Distinguished Service Award, 1980
Western section ASAS, 443
Distinguished Service Award, 1981
Southern section ASAS, 1479
Dystocia
Variables associated with peripartum traits in dairy cows. VIII. Hormonal profiles associated with, 346

## E

Economic characters
Characterization of the Boran and Sahiwal breeds of cattle for, 1286
Education opportunities, research and
In livestock grazing, 650
Elmslie, Wallace P.
Memorial, 1480
Endometrial prostaglandin F release *in vitro*
And plasma 13, 14-dihydro-15-keto-prostaglandin $F_2\alpha$ in pigs with luteolysis blocked by pregnancy, estradiol benzoate or human chorionic gonadotropin, 330
Energy, digestible
Linear models for calculating, for sheep diets, 1183
Energy intake, daily
Effect of doubling, during the last two weeks of pregnancy on pig birth weight, survival and weaning weight, 535
Erratum, 1471
Estradiol benzoate
Endometrial prostaglandin F release *in vitro* and plasma 13, 14-dihydro-15-keto-prostaglandin $F_2\alpha$ in pigs with luteolysis blocked by pregnancy, or human chorionic gonadotropin, 330
Estradiol-17α-induced LH release
Estriol and, in ovariectomized cows and ewes, 1106
Estradiol-silicone rubber removable implant
The efficacy of, in suckling, growing and finishing steers, 939
Estriol and estradiol-17α-induced LH release
In ovariectomized cows and ewes, 1106
Estrogen concentrations
Progesterone and, in gilts with delayed parturition, 323
Estrous cycle, the
Growth and replacement of the bovine ovarian follicles during, 813
Estrus, regulation of
Increased sperm death in the cervix and uterus of estrous ewes after, with prostaglandin or progestogen, 601
Estrus, suckling effect on
And blood plasma progesterone in postpartum beef cows, 802
Estrus in swine
Synchronization of, with allyl trenbolone (RU-2267), 831
Estrus synchronization
FSH or FSH plus LH superovulation in ewes following, with medoxyprogesterone acetate pessaries, 115

Estrus, synchronization of
In gilts with allyl trenbolone: fecundity after natural service and insemination with frozen semen, 130
Ewes
Detection of pregnancy in, with the ultrasonic Scanopreg, 463
FSH or FSH plus LH superovulation in, following estrus synchronization with medoxyprogesterone acetate pessaries, 115
Ewes, estrous
Increased sperm death in the cervix and uterus of, after regulation of estrus with prostaglandin or progestogen, 601
Ewes, ovariectomized cows and
Estriol and estradiol-17α-induced LH release in, 1106
Ewes, postpartum anestrous
Factors affecting function of induced corpora lutea in, 1122
Ewes, production indices of
Productivity of purebred and crossbred Finnsheep. II. Lamb weights and, 998
Ewes, productivity of $F_1$
Border Leicester and Finnsheep crosses, 1262
Ewes, reproductive traits of
Productivity of purebred and crossbred Finnsheep. I., and lamb survival, 989
Ewes in estrus
Sperm death and inhibition of sperm transport in the cervix of, after removal of the corpus luteum-bearing ovary, 611
Exercise during gestation, forced
Effects of, on farrowing and weaning performance of swine, 1240
Experimental results
Crossbreeding in swine, 906

## F

Fasting
Short-term metabolic response in wethers to high dietary protein intake prior to, 382
Fasting, effect of
On free fatty acid, glycerol and cholesterol concentrations in blood plasma and lipoprotein lipase activity in adipose tissue of cattle, 75
On hormones and metabolites in plasma of fast-growing, lean and slow-growing, obese pigs, 69
Fat
Muscle, and bone in serially slaughtered large dairy or small beef cattle fed corn or corn silage diets in one of two locations, 512
Fat, characteristics of
From heavy ram and wether lambs, 83
Fat content, intramuscular
Constant time *versus* constant temperature cooking of beef loin steaks as influenced by marbling characteristics and, 1034
Fatty acid, free
Effect of fasting on, glycerol and cholesterol concentrations in blood plasma and lipoprotein lipase activity in adipose tissue of cattle, 75
Fecal components
Relationship between, and forage consumption and digestibility, 835
Feed and fiber needs
Grazing land resources for meeting, 644
Feed conversion, effects of selection for
On efficiency of growth in mice, 1280
Feed efficiency
And metabolite concentrations of cattle fed high forage diets with lasalocid or monensin supplements, 427
Feed intake
Calcium chloride as a regulator of, and weight gain by pigs, 778
Rumen fluid value and turnover, nitrogen and mineral balance and acid-base status of wethers changed from low to high concentrate diets, 1376
Feed intake, effect of diet on
And growth of rabbits from weaning to slaughter at different ages and weights, 1225
Feeding swine waste
I. Fermentation characteristics of swine waste ensiled with ground hay or ground corn grain, 1388
II. Nitrogen utilization, digestibility and palatability of ensiled swine waste and orchardgrass hay or corn grain fed to sheep, 1404
Feedlot cattle
Fermented ammoniated condensed whey as a crude protein source for, 677
Feedlot cattle, performance of
Fed brown midrib-three or normal corn silage with various levels of additional corn grain, 8
Feedlot performance
Alkali treatment of cereal grains. II. Digestion, ruminal measurements and, 144
Phosphorus in swine. I. Influence of dietary calcium and phosphorus levels and growth rate on, of barrows, gilts and boars, 1041
Phosphorus in swine. IV. Influence of dietary calcium and phosphorus and protein levels on, serum minerals, bone development and soundness scores in boars, 1070
Phosphorus in swine. V. Interrelationships of various, serum minerals, structural soundness and bone parameters in barrows, boars and gilts, 1085
Fermentation, ruminal
Effect of monensin on, forage intake and weight gains of wheat pasture stocker cattle, 447
Ferric choline citrate
Availability of iron from, and a ferric copper cobalt choline citrate complex for young pigs, 783
Ferric copper cobalt choline citrate complex
Availability of iron from ferric choline citrate and a, for young pigs, 783
Fiber needs, food and
Grazing land resources for meeting, 644
Fibroblast proliferative activity
Effects of breed and zeranol implantation on serum insulin, somatomedin-like activity and, 57
Relationship of serum somatomedin-like activity and, with age and body weight gain in sheep, 63
Finnsheep, productivity of purebred and crossbred
I. Reproductive traits of ewes and lamb survival, 989

II. Lamb weights and production indices of ewes, 998
Fish product, an ensiled waste
An evaluation of, in swine diets, 93
Follicles, bovine ovarian
Growth and replacement of the, during the estrous cycle, 813
Follicles, removal of
Effect of, corpora lutea or ovaries on maintenance of pregnancy in swine, 794
Forage, digestibility of
Influence of Captan on *in vitro* and *in vivo*, 377
Forage consumption
Relationship between fecal components and, and digestibility, 836
Forage intake
Effect of monensin on ruminal fermentation, and weight gains of wheat pasture stocker cattle, 447
Forage quality
The weanling meadow vole as a bioassay of, of temperature and tropical grasses, 1205
Forage systems
Postweaning growth and carcass characteristics of various frame size steers on, 232

## G

Genetic analysis
Long-term selection for rapid grain in mice. I., at the limit of response, 729
Genetic and environmental effects, estimates of
On performance traits from Limousin field data, 37
Genetic and heterosis effects, additive
In crosses among cattle breeds of British, European and Zebu origin, 1007
Genetic evaluations
Monte Carlo study of, using sequentially selected records, 257
Genetic manipulation, possibilities for
Of sex ratio in livestock, 265
Gestation
Effect of level of dietary calcium-phosphorus during growth and, on calcium-phosphorus balance and reproductive performance of first-litter sows, 1343
Effect of level of dietary calcium-phosphorus during growth and, on performance, blood and bone parameters of swine, 1330
Gestation, forced exercise during
Effects of, on farrowing and weaning performance of swine, 1240
Gilts
Synchronization of estrus in, with allyl trenbolone: fecundity after natural service and insemination with frozen semen, 130
Gilts, estrous activity of
Influence of confinement and season of the year on puberty and, 821
Gilts with delayed parturition
Progesterone and estrogen concentrations in, 323
Glutathione peroxidase activities
Value of dietary selenium and vitamin E for weanling swine as measured by performance and tissue selenium and, 302
Glycerol and cholesterol concentrations
Effect of fasting on free fatty acid, in blood plasma and lipoprotein lipase activity in adipose tissue of cattle, 75
Glycoprotein, a sperm membrane
Concentrations of sperm, protein and, within boar epididymal luminal fluids, 575
Gold or chromium
Preparation and digestibility of alfalfa leaves and stems marked with, 1417
Gonadotropin, human chorionic
Endometrial prostaglandin F release *in vitro* and plasma 13, 14-dihydro-15-keto-prostaglandin $F_2\alpha$ in pigs with luteolysis blocked by pregnancy, estradiol benzoate or, 330
Gonadotropin binding to theca and granulosa
Ovarian function in the cycling cow: relationship between, and steroidogenesis in individual follicles, 1457
Gonadotropin dose, effect of
And postpartum status on induced ovulation and pregnancy in lactating sows, 688
Grasses, tropical
The weanling meadow vole as a bioassay of forage quality of temperature and, 1205
Grazing land resources
For meeting food and fiber needs, 644
Growth, postweaning
And carcass characteristics of various frame size steers on forage systems, 232
Growth, preweaning
Calf survival and, in divergent beef breeds and crosses, 1244
Growth of swine
The relationship of thyroxine secretion rate to, 500
Growth traits
Monte Carlo study of within-herd multiple trait evaluation of beef cattle, 248

## H

Hay
Nutritive value of protected tallow product fed with, to beef cattle as assessed by respiration calorimetry, 391
Hay intake by cattle
Efficiency of mastication in relation to, 1371
Hay or ground corn grain, ground
Feeding swine waste. I. Fermentation characteristics of swine waste ensiled with, 1388
Hays, millet and alfalfa
Alone and in combination with high energy diet for receiving stressed calves, 939
Heat stress
As it affects animal production, 164
Heat stress, acute
Central sympathetic control of uterine blood flow during, 114
Heat treatment, effect of
On true digestibility in the rat, *in vitro* proteolysis and available lysine content of cottonseed meal protein, 292
Heifers, adrenalectomized
Adrenal-gonad interactions in cattle. Corpus luteum function in intact and, 1098

Heifers, the LH surge in
Effect of exogenous progesterone on time of occurrence of, 580
Heterotic effects from crossbreeding experiments
Estimation of direct and maternal additive and, in animals, 44
Heterozygosity, biological detection of
For double muscling in cattle.
I. Terminal innervation ratio, 1430
II. Thyroid hormone concentrations, 1437
Histological properties of ovine muscle
Effect of breed, slaughter weight and sex on, 1019
Hormonal profiles
Variables associated with peripartum traits in dairy cows. VIII., associated with dystocia, 346
Hormone, luteinizing
Serum testosterone response in Holstein bulls after administration of, 340
Hormones and metabolites in plasma
Effect of fasting on, of fast-growing lean and slow-growing, obese pigs, 69
Housing and management
To reduce climatic impacts on livestock, 175
Hydroxide
Reconstituted Kentucky bluegrass straw. II. Ensiled with, and soybean meal, cull beans or peas, 406
Hydroxides, calcium
Reconstituted Kentucky bluegrass straw. I. Ensiled with molasses and sodium or, 398

## I

Immunization, use of active
Against prolactin to study the influence of prolactin on growth and reproduction in the ram, 1350
Immunoglobulin, colostral
Cold stress reduces the acquisition of, in piglets, 594
Implant, removable
The efficacy of an estradiol-silicone rubber, in suckling, growing and finishing steers, 939
Indomethacin, effect of
And prostaglandin $F_2\alpha$ on parturition in swine, 1360
On dexamethasone-induced parturition in swine, 788
Intestine, small
Reentrant cannulation of the, in sheep, 849
Iodine, effect of dietary
On tissue iodine content in the bovine, 413
Iron, availability of
From ferric choline citrate and a ferric copper cobalt choline citrate complex for young pigs, 783

## K

Kentucky bluegrass straw, reconstituted
I. Ensiled with molasses and sodium or calcium hydroxides, 398
II. Ensiled with hydroxide and soybean meal, cull beans or peas, 406
Kentucky-31 tall fescue
Winter stocking-summer finishing systems using rye, and Coastal bermudagrass pastures, 945
Kieserite
Mineral status of beef cows and sheep on spring pasture fertilized with, 969

## L

Lactation/feeding regimen
Milk composition and daily yield of different milk components as affected by sow condition and, 1091
Lactic acidosis
Prevention of induced, in cattle by thiopeptin, 635
Lamb, pasture-fed
Effect of plane of nutrition on carcass composition and the palatability of, 285
Lamb, the neonatal
Trypsin and chymotrypsin development in, 359
Lamb survival
Productivity of purebred and crossbred Finnsheep. I. Reproductive traits of ewes and, 989
Lamb weights
Productivity of purebred and crossbred Finnsheep. II., and production indices of ewes, 998
Lambs, crossbred
Carcass and meat characteristics of, with and without Finnish Landrace breeding, 1026
Lands, public
And private livestock, 661
Lasalocid, effects of
Or monensin on lactate-producing or -using rumen bacteria, 418
Lasalocid or monensin supplements
Growth, feed efficiency and metabolite concentrations of cattle fed high forage diets with, 427
Lean, estimating
In pork carcasses differing in backfat thickness, 703
Limestones
Comparison between, and cement kiln dusts of reactivity used in high concentrate diets for beef steers, 873
Limestones, calcitic
Effect of level of calcium and rate of reactivity of, on utilization of high concentrate diets by beef steers, 882
Limousin field data
Estimates of genetic and environmental effects on performance traits from, 37
Linear models
For calculating digestible energy for sheep diets, 1183
Lipids, dietary
The influence of sow, and choline on piglet survival, milk and carcass composition, 542
Lipogenesis and lipolysis
Effects of age on, in lean and obese swine, 505
Lipogenic rate, factors influencing the
In swine adipose tissue, 1298
Lipolysis, lipogenesis and
Effects of age on, in lean and obese swine, 505
Lipolytic activities, swine adipose tissue
Effect of nutritional status on, 1306
Lipoprotein lipase activity
Effect of fasting on free fatty acid, glycerol and cholesterol concentrations in blood plasma and, in adipose tissue of cattle, 75

Litter productivity
Comparison of three-breed and backcross swine for, and postweaning performance, 18
Livestock, climatic impacts on
Housing and management to reduce, 175
Livestock, private
Public lands and, 661
Livestock, sex ratio in
Possibilities for genetic manipulation of, 263
Livestock grazing
Research and education opportunities in, 650
Luminal fluids, boar epididymal
Concentrations of sperm, protein and a sperm membrane glycoprotein within, 575
Luteinizing hormone
Cortisol and, after adrenocorticotropic hormone administration to postpartum beef cows, 587
Luteinizing hormone-releasing hormone
A priming effect of, on bovine pituitary cells *in vitro*, 1137
Luteinizing hormone surge in heifers, the
Effect of exogenous progesterone on time of occurrence of, 580
Luteotropic effects
Of bovine blastocysts, 567
Lysine content, available
Effect of heat treatment on true digestibility in the rat, *in vitro* proteolysis and, of cottonseed meal protein, 292

## M

Magnesium, renal clearance of
In sheep given citric acid and(or) potassium chloride, 895
Management
Housing and, to reduce climatic impacts on livestock, 175
Marbling characteristics
Constant time *versus* constant temperature cooking of beef loin steaks as influenced by, and intramuscular fat content, 1034
Market lamb production from crossbred ewes
Border Leicester and Finnsheep crosses. III., 1272
Mastication, efficiency of
In relation to hay intake by cattle, 1371
Maternal performance
Mature weight, maturation rate, and their interrelationships in purebred and crossbred cows of Angus and milking Shorthorn parentage, 51
Mating systems, comparisons of
With Duroc, Hampshire and Yorkshire breeds of swine for efficiency of swine production, 26
Maturation rate
Mature weight, maternal performance and their interrelationships in purebred and crossbred cows of Angus and milking Shorthorn parentage, 51
McLachlin, Harry P.
Memorial, 1480
Meadow vole, the weanling
As a bioassay of forage quality of temperate and tropical grasses, 1205
Meat, appearance and palatability of
Improving, from ram lambs by electrical stimulation, 522
Meat characteristics
Carcass and, of crossbred lambs with and without Finnish Landrace breeding, 1026
Medoxyprogesterone acetate pessaries
FSH or FSH plus LH superovulation in ewes following estrus synchronization with, 115
Memorials
Elmslie, Wallace P., 1480
McLachlin, Harry B., 1480
Roubicek, Carl B., 195
Younkin, Dwight E., 673
Metabolic response, short-term
In wethers to high dietary protein intake prior to fasting, 382
Metabolites, effect of fasting on hormones and
In plasma of fast-growing, lean and slow-growing, obese pigs, 69
Metal retention, heavy
In tissues of cattle fed high cadmium sewage sludge, 108
Methane production
Monensin supplementation and *in vivo*, by sheep, 628
Mice, efficiency and growth in
Effects of selection for feed conversion on, 1280
Mice, long-term selection for rapid gain in
I. Genetic analysis at the limit of response, 729
II. Correlated changes in reproduction, 739
Milk
The influence of sow dietary lipids and choline on piglet survival, milk and carcass composition, 542
Milk, composition of
Yield and, from various two-breed cross cows, 483
Milk, yield and composition of
From various two-breed cross cows, 483
Milk composition
And daily yield of different milk components as affected by sow condition and lactation/feeding regimen, 1091
Millet and alfalfa hays
Alone and in combination with high energy diet for receiving stressed calves, 939
Mineral composition
Influence of collection method on nutrient content, and *in vitro* digestibility of kikuyugrass pasture, 867
Mineral content of hair
Phosphorus in swine. III. Influence of dietary calcium and phosphorus levels and growth rate on, from gilts and barrows and boars, 1060
Mineral status
Of beef cows and sheep on spring pasture fertilized with kieserite, 969
Molasses
Reconstituted Kentucy bluegrass straw. I. Ensiled with, and sodium or calcium hydroxides, 398
Monensin
Effects of lasalocid or, on lactate-producing or -using rumen bacteria, 418
Monensin, effect of
On ruminal fermentation, forage intake and weight gains of wheat pasture stocker cattle, 447
Monensin supplementation
And *in vivo* methane production by steers, 628
Monensin supplements
Growth, feed efficiency and metabolite concen-

trations of cattle fed high forage diets with lasalocid or, 427
Monogastrics
Ammonium polyphosphate as a source of phosphorus and nonprotein nitrogen for, 1
Monte Carlo study
Of within-herd multiple trait evaluation of beef cattle growth traits, 248
Of genetic evaluations using sequentially selected records, 257
Muscle, fat and bone
In serially slaughtered large dairy or small beef cattle fed corn or corn silage diets in one of two locations, 512
Muscle, ovine
Effect of breed, slaughter weight and sex on histological properties of, 1019
Muscle, skeletal
And adipose tissue cellularity in runt and normal birth weight swine, 748
Muscle characteristics, palatability and
Of cattle with controlled weight gain: time on a high energy diet, 757
Muscle characteristics, postmortem
Porcine stress syndrome and, of two purebreeds and three specific terminal crosses, 278
Muscle mass
Evaluation of adjusted net $^{40}$K count as a predictor of, in yearling beef bulls, 764

## N

Net $^{40}$K count
Evaluation of adjusted, as a predictor of muscle mass in yearling beef cattle, 764
News and notes, 187, 432, 664, 924, 1211, 1469
Nitrogen
Apparent digestibility of amino acids and, in three cottonseed meals and one soybean meal, 769
Nitrogen and mineral balance
Feed intake, rumen fluid value and turnover, and acid-base status of wethers changed from low to high concentrate diets, 1376
Nitrogen sources for growing cattle
Fed barley and either wheat straw or dehydrated alfalfa, 1143
Nitrogen utilization
Feeding swine waste. III. Digestibility, and palatability of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Nodular worms (*Oesophagostomum spp.*)
Influence of an experimental infection of, on performance of pigs, 316
Nonprotein nitrogen
Ammonium polyphosphate as a source of phosphorus and, for monogastrics, 1
Nutrient absorption
A technique for monitoring, in the conscious, unrestrained pig, 101
Nutrient content
Influence of collection method on, mineral composition and *in vitro* digestibility of kikuyugrass pasture, 867
Nutrients, digestibility of
Factors affecting, by sheep, 363
Nutrition, effect of plane of
On carcass composition and the palatability of pasture-fed lamb, 285
Nutritional status, effect of
On swine adipose tissue lipolytic activities, 1306

## O

Orchardgrass hay
Feeding swine waste. II. Nitrogen utilization, digestibility and palatability of ensiled swine waste and, or corn grain fed to sheep, 1404
Feeding swine waste. III. Digestibility, nitrogen utilization and palatability of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Ovarian function in the cycling cow
Relationship between gonadotropin binding to theca and granulosa and steroidogenesis in individual follicles, 1457
Ovaries
Effect of removal of follicles, corpora lutea or, on maintenance of pregnancy in swine, 794
Ovulation, induced
Effect of gonadotropin dose and postpartum status on, and pregnancy in lactating sows, 688

## P

Palatability
And muscle characteristics of cattle with controlled weight gain: time on a high energy diet, 757
Feeding swine waste. II. Nitrogen utilization, digestibility and, of ensiled swine waste and orchardgrass hay or corn grain fed to sheep, 1404
Feeding swine waste. III. Digestibility, nitrogen utilization and, of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Palatability of pasture-fed lamb, the
Effect of plane of nutrition on carcass compositon and, 285
Pancreatic amylase
Effect of dietary cornstarch intake on, and intestinal maltase and pH in cattle, 1177
Parturition, delayed
Progesterone and estrogen concentrations in gilts with, 323
Pasture
Evaluation of Tifton, Coastal and Callie bermudagrass as, for growing beef steers, 725
Pasture, kikuyugrass
Influence of collection method on nutrient content, mineral composition and *in vitro* digestibility of, 867
Pasture performance, hill
Effects of stocking rate on sheep and, 210
Pastures
Winter stocking-summer finishing systems using rye, Kentucky-31 tall fescue and Coastal bermudagrass, 945
Peas
Reconstituted Kentucky bluegrass straw. II. Ensiled with hydroxide and soybean meal, cull beans or, 406

Phosphorus in swine.
I. Influence of dietary calcium and phosphorus levels and growth rate on feedlot performance of barrows, gilts and boars, 1041
II. Influence of dietary calcium and phosphorus levels and growth rate on serum minerals, soundness scores and bone development in barrows, gilts and boars, 1049
III. Influence of dietary calcium and phosphorus levels and growth rate on mineral content of hair from gilts and barrows or gilts, 1060
IV. Influence of dietary calcium and phosphorus and protein levels on feedlot performance, serum minerals, bone development and soundness scores in boars, 1070
V. Interrelationships of various feedlot performance, serum mineral, structural soundness and bone parameters in barrows, boars and gilts, 1085
Performance
Of early- and normal-weaned beef calves and their dams, 715
Performance, postweaning
Of crossbred pigs fed normal and high fiber diets, 197
Performance and composition, animal
Effect of replacement of corn by protected tallow in a cattle finishing diet on, 696
Performance of beef cattle
Relationship of body measurements, weight, age and fatness to size and, 493
Performance traits
Estimates of genetic and environmental effects on, from Limousin field data, 37
Phosphorus, a source of
Ammonium polyphosphate as, and nonprotein nitrogen for monogastrics, 1
Pig, the conscious, unrestrained
A technique for monitoring nutrient absorption in, 101
Pig birth weight, survival and weaning weight
Effect of doubling daily energy intake during the last two weeks of pregnancy on, 535
Pig skeletal muscle
Changes in the satellite cell population during postnatal growth of, 1014
Piglet survival
The influence of sow dietary lipids and choline on, milk and carcass composition, 542
Piglets
Cold stress reduces the acquisition of colostral immunoglobulin in, 594
Pigs, crossbred
Postweaning performance of, fed normal and high fiber diets, 197
Pigs, fast-growing, lean and slow-growing, obese
Effect of fasting on hormones and metabolites in plasma of, 69
Pigs, growing-finishing
Effect of sorghum particle size on digestibility of nutrients at the terminal ileum and over the total digestive tract of, 557
Pigs, performance of
Effects of copper, with and without ferrous sulfide, and antibiotics on, 241
Influence of an experimental infection of nodular worms (*Oesophagostomum spp.*) on, 316
Pigs, weaned
Wet *versus* dry diets for, 14
Pigs, weight gain by
Calcium chloride as a regulator of feed intake and, 778
Pigs, Yorkshire (lean) and Ossabaw (obese)
Subcutaneous adipose tissue development in, 1442
Pigs, young
Availability of iron from ferric choline citrate and a ferric copper cobalt choline citrate complex for, 783
Pigs with luteolysis blocked by pregnancy
Endometrial prostaglandin F release *in vitro* and plasma 13, 14-dihydro-15-keto-prostaglandin $F_2\alpha$ in, estradiol benzoate or human chorionic gonadotropin, 330
Pituitary cells *in vitro*, bovine
A priming effect of luteinizing hormone-releasing hormone on, 1137
Placement, 191, 437, 668, 929, 1214,
Plasma amino acid response
To abomasal infusions of amino acids in sheep, 1421
Pony mares
Influence of season and age on reproductive activity in, on the basis of a slaughterhouse survey, 119
Pork carcasses
Estimating lean in, differing in backfat thickness, 703
Postnatal growth of pig skeletal muscle
Changes in the satellite cell population during, 1014
Postpartum status
Effect of gonadotropin dose and, on induced ovulation and pregnancy in lactating sows, 688
Postweaning performance
Comparison of three-breed and backcross swine for litter productivity and, 18
Potassium chloride
Renal clearance of magnesium in sheep given citric acid and(or), 895
Pregnancy
Effect of doubling daily energy intake during the last two weeks of, on pig birth weight, survival and weaning weight, 535
Pregnancy, detection of
In ewes with the ultrasonic Scanopreg, 463
Pregnancy in lactating sows
Effect of gonadotropin dose and postpartum status on induced ovulation and, 688
Pregnancy in swine
Effect of removal of follicles, corpora lutea or ovaries on maintenance of, 794
Priming effect
Of luteinizing hormone-releasing hormone on bovine pituitary cells, 1137
Productivity of range cows
Influence of breed, calving season, supplementation and year on, 455
Progesterone, blood plasma
Suckling effect on estrus and, in postpartum beef cows, 802
Progesterone, exogenous
Effect of, on time of occurrence of the LH surge in heifers, 580

Progesterone and estrogen concentrations
In gilts with delayed parturition, 323
Progestogen
Increased sperm death in the cervix and uterus of estrous ewes after regulation of estrus with prostaglandin or, 601
Prolactin, the influence of
Use of active immunization against prolactin to study, on growth and reproduction in the ram, 1350
Prostaglandin
Increased sperm death in the cervix and uterus of estrous ewes after regulation of estrus with, or progestogen, 601
Prostaglandin $F_2\alpha$
Effect of indomethacin and, on parturition in swine, 1360
Protein
Concentrations of sperm, and a sperm membrane glycoprotein within boar epididymal luminal fluids, 575
Protein intake, high dietary
Short-term metabolic response in wethers to, prior to fasting, 382
Protein source, a crude
Fermented ammoniated condensed whey as, for feedlot cattle, 677
Proteins, supplemental
Degradation of, in the rumen, 849
Proteolysis, *in vitro*
Effect of heat treatment on true digestibility in the rat, and available lysine content of cottonseed meal protein, 292
Puberty
Influence of confinement and season of the year on, and estrous activity of gilts, 821
Public lands
And private livestock, 661

## R

Rabbits, growth of
Effect of diet on feed intake and, from weaning to slaughter at different ages and weights, 1225
Ram, growth and reproduction in the
Use of active immunization against prolactin to study the influence of prolactin on, 1350
Ram and wether lambs, heavy
Characteristics of fat from, 83
Ram lambs
Improving appearance and palatability of meat from, by electrical stimulation, 522
Rangeland policy impact
On the animal industry, 655
Rat, true digestibility in the
Effect of heat treatment on, *in vitro* proteolysis and available lysine content of cottonseed meal protein, 292
Records, sequentially selected
Monte Carlo study of genetic evaluations using, 257
Reentrant cannulation
Of the small intestine in sheep, 849
Reproduction, correlated changes in
Long-term selection for rapid gain in mice. II., 739
Reproductive activity
The influence of season and age on, in pony mares on the basis of a slaughterhouse survey, 119
Reproductive performance of first-litter sows
Effect of level of dietary calcium-phosphorus during growth and gestation on calcium-phosphorus balance and, 1343
Research needs
On the utilization aspects of feeding animal wastes, 902
Respiration calorimetry
Nutritive value of protected tallow product fed with hay to beef cattle as assessed by, 391
Response, limit of
Long-term selection for rapid gain in mice. I. Genetic analysis at the, 729
Rotational crossing, two- and three-way
Comparison of, and synthetic variety production involving inbred lines of Hereford cattle: preweaning and weaning traits, 473
Roubicek, Carl B.
Memorial, 195
Rumen
Degradation of supplemental proteins in the, 857
Rumen bacteria, lactate-producing or -using
Effects of lasalocid or monensin on, 418
Rumen fluid value and turnover
Feed intake, nitrogen and mineral balance and acid-base status of wethers changed from low to high concentrate diets, 1376
Rumen metabolism
And absorption of a $^{14}C$-labeled elastometric copolymer and its value as a roughage substitute for cattle, 1150
Rumen parameters
Effects of sodium bentonite, buffer salts, cement kiln dust and clinoptilolite on, of beef steers fed a high roughage diet, 1197
Ruminal measurements
Alkali treatment of cereal grains. II. Digestion, and feedlot performance, 144
Ruminants, a diet supplement for
Ensiling cattle waste with rye straw as, 1233
Rye
Winter stocking-summer finishing systems using, Kentucky-31 tall fescue and Coastal bermudagrass pastures, 945
Rye straw
Ensiling cattle waste with, as a diet supplement for ruminants, 1233

## S

Satellite cell population, changes in the
During postnatal growth of pig skeletal muscle, 1014
Scanopreg, ultrasonic
Detection of pregnancy in ewes with the, 463
Season and age, influence of
On reproductive activity in pony mares on the basis of a slaughterhouse survey, 119
Season of the year
Influence of confinement and, on puberty and estrous activity of gilts, 821
Selenium, value of dietary
And vitamin E for weanling swine as measured by

performance and tissue selenium and glutathione peroxidase activities, 302
Semen, frozen
Synchronization of estrus in gilts with allyl trenbolone: fecundity after natural service and insemination with, 130
Serum, effects of
On swine morulae and blastocysts *in vitro*, 1450
Serum insulin
Effects of breed and zeranol implantation on, somatomedin-like activity and fibroblast proliferative activity, 57
Serum minerals, soundness scores and bone development
Phosphorus in swine. II. Influence of dietary calcium and phosphorus levels and growth rate on, in barrows, gilts and boars, 1049
Sewage sludge, high calcium
Heavy metal retention in tissues of cattle fed, 108
Sex
Effect of breed, slaughter weight and, on histological properties of ovine muscle, 1019
Sex ratio in livestock
Possibilities for genetic manipulation of, 265
Sheep
Effects of stocking rate on, and hill pasture performance, 210
Factors affecting digestibility of nutrients by, 363
Feeding swine waste. II. Nitrogen utilization, digestibility and palatability of ensiled swine waste and orchardgrass hay or corn grain fed to, 1404
Mineral status of beef cows and, on spring pasture fertilized with kieserite, 969
Plasma amino acid response to abomasal infusions of amino acids in, 1421
Reentrant cannulation of the small intestine in, 849
Renal clearance of magnesium in, given citric acid and(or) potassium chloride, 895
Sheep, age and body weight gain in
Relationship of serum somatomedin-like activity and fibroblast proliferative activity with, 63
Sheep, Rambouillet, Targhee and Columbia
Weaning trait comparisons among inbred lines and selected noninbred and randomly bred control groups of, 977
Sheep diets
Linear models for calculating digestible energy for, 1183
Sheep fed corn plants or hay
Acid insoluble ash as a marker of digestibility for, and for lactating dairy cattle fed hay *ad libitum*, 1164
Shipping fever
Transit factors affecting shrink, and subsequent performance of feeder calves, 1219
Shrink, transit factors affecting
Shipping fever and subsequent performance of feeder calves, 1219
Slaughter weight
Effect of breed, and sex on histological properties of ovine muscle, 1019
Slaughterhouse survey
Influence of season and age on reproductive activity in pony mares on the basis of a, 119
Sodium
Reconstituted Kentucky bluegrass straw. I. Ensiled with molasses and, or calcium hydroxides, 398
Sodium bentonite, effects of
Buffer salts, cement kiln dusts and clinoptilolite on rumen parameters of beef steers fed a high roughage diet, 1197
Somatomedin-like activity
Effects of breed and zeranol implantation on serum insulin, and fibroblast proliferative activity, 57
Somatomedin-like activity, serum
Relationship of, and fibroblast proliferative activity with age and body weight gain in sheep, 63
Sorghum particle size
Effect of, on digestibility of nutrients at the terminal ileum and over the total digestive tract of growing-finishing pigs, 557
Southern section ASAS
1981 Distinguished Extension Award, 1478
1981 Distinguished Service Award, 1479
Sow condition
Milk composition and daily yield of different milk components as affected by, and lactation/feeding regimen, 1091
Sow dietary lipids and choline
The influence of, on piglet survival, milk and carcass composition, 542
Sows
Use of boar spermatozoa in artificial insemination. I. Fertilizing capacity of fresh and frozen spermatozoa in, on 36 farms, 1130
Sows, first-litter
Effect of level of dietary calcium-phosphorus during growth and gestation on calcium-phosphorus balance and reproductive performance of, 1343
Sows, lactating
Effect of gonadotropin dose and postpartum status on induced ovulation and pregnancy in, 688
Soybean meal
Apparent digestibility of amino acids and nitrogen in three cottonseed meals and one, 769
Reconstituted Kentucky bluegrass straw. II. Ensiled with hydroxide and, cull beans or peas, 406
Sperm, concentrations of
Protein and a sperm membrane glycoprotein within boar epididymal luminal fluids, 575
Sperm transport, inhibition of
Sperm death and, in the cervix of ewes in estrus after removal of the corpus luteum-bearing ovary, 611
Spermatozoa, fresh and frozen
Use of boar spermatozoa for artificial insemination. I. Fertilizing capacity of, in sows on 36 farms, 1130
Starch digestion in cattle
Effect of dietary cornstarch intake on ruminal, small intestinal and large intestinal, 1170
Steaks, beef loin
Constant time *versus* constant temperature cooking of, as influenced by marbling characteristics and intramuscular fat content, 1034
Steers
Effect of 2- *versus* 6-day collections for the determination of ruminal and postruminal digestion in, 134

Monensin supplementation and *in vivo* methane production by, 628
Steers, Charolais and Angus
Slaughtered at equal percentages of mature cow weight. I. Effects of slaughter weight and diet energy density on carcass traits, 218
Steers, suckling, growing and finishing
The efficacy of an estradiol-silicone rubber inplant in, 939
Steers, various frame size
Postweaning growth and carcass characteristics of, on forage systems, 232
Steroidogenesis in individual follicles
Ovarian function in the cycling cow: relationship between gonadotropin binding to theca and granulosa and, 1457
Stimulation, electrical
Effect of, on thermal shrinkage temperature of bovine muscle collagen, 530
Improving appearance and palatability of meat from ram lambs by, 522
Stocking rate, effects of
On sheep and hill pasture performance, 210
Stress, animal
What is, and how is it measured?, 150
Stress, cold
As it affects animal production, 154
Stress syndrome, porcine
And postmortem muscle characteristics of two purebreeds and three specific terminal crosses, 278
Sulfide, ferrous
Effects of copper, with and without, and antibiotics on the performance of pigs, 241
Superovulation, FSH or FSH plus LH
In ewes following estrus synchronization with medoxyprogesterone acetate pessaries, 115
Survival, growth and carcass traits of $F_1$ lambs
Border Leicester and Finnsheep crosses, 1253
Swine
Effect of indomethacin on dexamethasone-induced parturition in swine, 788
Effect of level of dietary calcium-phosphorus during growth and gestation on performance, blood and bone parameters of, 1330
Feeding swine waste. III. Digestibility, nitrogen utilization and palatability of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Influence of age, sex and calcium and phosphorus levels on the mechanical properties of various bones in, 1319
The relationship of thyroxine secretion rate to growth in, 500
Swine, breeds of
Comparisons of mating systems with Duroc, Hampshire and Yorkshire, for efficiency of swine production, 26
Swine, crossbreeding in
Experimental results, 906
Swine, diets of
An evaluation of an ensiled waste fish product in, 93
Moldy corn in, 1312
Swine, estrus in
Synchronization of, with allyl trenbolone (RU-2267), 831
Swine, gestating
Wheat shorts in diets, of, 551
Swine, lean and obese
Effects of age on lipogenesis and lipolysis in, 505
Swine, parturition in
Effect of indomethacin and prostaglandin $F_2\alpha$ on, 1360
Swine, pregnancy in
Effect of removal of follicles, corpora lutea or ovaries on maintenance of, 794
Swine, runt and normal birth weight
Skeletal muscle and adipose tissue cellularity in, 748
Swine, three-breed and backcross
Comparison of, for litter productiviy and postweaning performance, 18
Swine, weaning performance of
Effects of forced exercise during gestation on farrowing and, 1240
Swine, weanling
Value of dietary selenium and vitamin E for, as measured by performance and tissue selenium and glutathione peroxidase activities, 302
Swine, young
Availability of zinc from metallic zinc dust for, 312
Swine adipose tissue
Factors influencing the lipogenic rate in, 1298
Swine morulae, effects of serum on
And blastocysts *in vitro*, 1450
Swine waste, ensiled
Feeding swine waste. II. Nitrogen utilization, digestibility and palatability of, and orchardgrass hay or corn grain fed to sheep, 1404
Feeding swine waste. III. Digestibility, nitrogen utilization and palatability of, and corn grain or orchardgrass hay fed to swine, 468
Swine waste, feeding
I. Fermentation characteristics of swine waste ensiled with ground hay or ground corn grain, 1388
II. Nitrogen utilization, digestibility and palatability of ensiled swine waste and orchardgrass hay or corn grain fed to sheep, 1404
III. Digestibility, nitrogen utilization and palatability of ensiled swine waste and corn grain or orchardgrass hay fed to swine, 468
Swine waste, fermentation characteristics of
Feeding swine waste. I., ensiled with ground hay or ground corn grain, 1388
Synthetic variety production
Comparison of two- and three-way rotational crossing and, involving inbred lines of Hereford cattle: preweaning and weaning traits, 475
Systems, winter stocking-summer finishing
Using rye, Kentucky-31 tall fescue and Coastal bermudagrass pastures, 945

## T

Tallow, protected
Effect of replacement of corn by, in a cattle finishing diet on animal performance and composition, 696
Tallow product, protected
Nutritive value of, fed with hay to beef cattle as assessed by respiration calorimetry, 191

Technique for monitoring
Nutrient absorption in the conscious, unrestrained pig, 101
Temperature
The weanling meadow vole as a bioassay of forage quality of, and tropical grasses, 1205
Temperature, environmental
Interaction of, and anti-quality factors on the severity of summer fescue toxicosis, 710
Terminal innervation ratio
Biological detection of heterozygosity for double muscling in cattle. I., 1430
Testosterone response, serum
In Holstein bulls after administration of luteinizing hormone, 340
Thermal shrinkage temperature
Effect of electrical stimulation on, of bovine muscle collagen, 530
Thiopeptin
Prevention of induced lactic acidosis in cattle by, 635
Thyroid hormone concentrations
Biological detection of heterozygostity for double muscling in cattle. II., 1437
Thyroxine secretion rate
The relationship of, to growth of swine, 500
Tifton 44, evaluation of
Coastal and Callie bermudagrass as pasture for growing beef steers, 725
Tissue, swine adipose
Effect of nutritional status on, lipolytic activities, 1306
Tissue development, subcutaneous adipose
In Yorkshire (lean) and Ossabaw (obese) pigs, 1442
Tissue iodine content
Effect of dietary iodine on, in the bovine, 413
Toxicosis, summer fescue
Interaction of environmental temperature and anti-quality factors on the severity of, /10
Traits, peripartum
Variables associated with, in dairy cows. VIII. Hormonal profiles associated with dystocia, 346
Traits, preweaning and weaning
Comparison of two- and three-way rotational crossing and synthetic variety production involving inbred lines of Hereford cattle:, 475
Transit factors
Affecting shrink shipping fever and subsequent performance of feeder calves, 1219
Trypsin and chymotrypsin development
In the neonatal lamb, 359

## U

Utilization aspects
Research needs on the, of feeding animal wastes, 902

## V

Vitamin E
Value of dietary selenium and, for weanling swine as measured by performance and tissue selenium and glutathione peroxidase activities, 302

## W

Weaning performance of swine
Effects of forced exercise during gestation on farrowing and, 1240
Weaning trait
Comparisons among inbred lines and selected non-inbred and randomly bred control groups of Rambouillet, Targhee and Columbia sheep, 977
Weight, mature
Maturation rate, maternal performance and their interrelationships in purebred and crossbred cows of Angus and milking Shorthorn parentage, 51
Weight, slaughter
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. I. Effects of, and diet energy density on carcass traits, 218
Weight gain, controlled
Palatability and muscle characteristics of cattle with,: time on a high energy diet, 757
Weight gain by pigs
Calcium chloride as a regulator of feed intake and, 778
Weight gains
Effect of monensin on ruminal fermentation, forage intake and, of wheat pasture stocker cattle, 447
Western section ASAS
1980 Distinguished Science Award, 443
1980 Young Animal Scientist Award, 442
Wethers
Feed intake, rumen fluid value and turnover, nitrogen and mineral balance and acid-base status of, changed from low to high concentrate diets, 1376
Short-term metabolic response of, to high dietary protein intake prior to fasting, 382
Wheat shorts
In diets of gestating swine, 551
Wheat straw
Ntrogen sources for growing cattle fed barley and either wheat straw or dehydrated alfalfa, 1141
Whey, fermented, ammoniated, condensed
As a crude protein source for feedlot cattle, 667

## Y

Younkin, Dwight F.
Memorial, 673
Young Animal Scientist Award, 1980
Western section ASAS, 442

## Z

Zeranol implantation, effect of breed and
On serum insulin, somatomedin-like activity and fibroblast proliferative activity, 57
Zinc, availability of
From metallic zinc dust for young swine, 312
Zinc dust, metallic
Availability of zinc from, for young swine, 312

# SUBJECT INDEX FOR VOLUME 53, 1981

Acceptability of beef
  Finished on all-forage, forage-plus-grain or high energy diets, 1181
Acid phosphate
  Effect of chloride salts, and electrical stimulation on pH and moisture loss from beef clod muscles, 658
Additives
  Changes in alfalfa haylage during wilting and ensiling with and without, 765
Adipocytes, bovine
  Examination of a lognormal distribution equation for describing distributions of diameters of, 1236
Age, body weight and backfat
  Effects of energy and dry matter intake on, at puberty and on embryo mortality in gilts, 118
Albendazole, anthelmintic activity of
  Against adult *Metastrongylus apri* in artificially infected swine, 1511
Alfalfa, dehydrated
  Feedlot performance of steers and lambs fed blood meal, meat and bone meal, and soybean meal as supplemental protein sources, 1198
Alfalfa diets fed to sheep
  Intake, digestibility, ruminal characteristics and rate of passage of, 774
Alfalfa-grass silage
  Laboratory investigations of hydroxide-treated sunflower or, 1623
Alfalfa haylage, changes in
  During wilting and ensiling with and without additives, 765
Alfalfa levels, effects of
  Performance of growing-finishing swine fed high levels of alfalfa meal:, dietary additives and antibiotics, 308
Alfalfa meal, high levels of
  Performance of growing-finishing swine fed,: Effects of alfalfa level, dietary additives and antibiotics, 308
Allyl trenbolone
  Ovarian activity and hormonal patterns in gilts fed, 1088
Amines, primary, secondary and tertiary
  Effects of, on *in vitro* cellulose digestion and volatile fatty acid production by ruminal microorganisms, 226
Amino acids
  Utilization of glucose, sucrose or cornstarch with casein or isolated soybean protein supplemented with, by eight-day-old pigs reared artificially, 1027
Ammonia toxicity in cattle
  V. Ammonia concentration of lymph and portal, carotid and jugular blood after the ingestion of urea, 494
Ammonia treatment
  Of corn plant residues: Digestibilities and growth rates, 1592
Androgen and glucocorticoid receptors
  In porcine skeletal muscle, 80
Anestrus
  Synchronization of ewes during,: Influence of time of year and interval to onset of estrus on conception rate, 448
Anestrous and estrous seasons
  Fertilization and embryonic survival in ewes synchronized with exogenous hormones during the, 458
Animal performance and carcass quality
  Metal residues in tissues, with beef steers grazing Pensacola bahiagrass pastures treated with liquid digested sludge, 146
Animals, plants and
  As protein sources, 817
Antibiotic interactions
  Dietary fiber and, on nutritional and metabolic parameters in the growing pig, 1309
Antibiotics, dietary additives and
  Performance of growing-finishing swine fed high levels of alfalfa meal: Effects of alfalfa level, 308
Antibody response
  And serum protein and immunoglobulin in pigs from sows fed different protein sequences during gestation and lactation, 1262
Arginine and histidine, the D-isomers of
  Utilization of, by chicks and rats, 125
ASAS Committees, 1690
Aspen tree material, whole
  Utilization of, as a roughage component in growing cattle diets, 551
Automating the eyes
  Of the herdsman, 516
Awards
  ASAS Honorary awards, 1692
  ASAS Honorary Fellows, 1703
  Midwestern Section ASAS
    1981 Younger Animal Scientist, Extension, 547
    1981 Younger Animal Scientist, Research, 548
    1981 Younger Animal Scientist, Teaching, 549
  Outstanding Senior awards, 1710
  Western Section ASAS
    1981 Distinguished Scientist, 1713
    1981 Young Scientist, 1713

## B

Backfat at puberty
  Effects of energy and dry matter intake on age, body weight and, and on embryo mortality in gilts, 118
Bahiagrass pastures, Pensacola
  Metal residues in tissues, animal performance and

carcass quality with beef steers grazing, treated with liquid digested sludge, 146
Bean (*Vicia faba* L.) diet, a raw field
Intestinal absorption of D-Glucose, D-Galactose and L-Leucine in male growing rats fed a, 414
Beef
Microbiological, vacuum packaging and palatability attributes of, produced at varied levels of forages and grain, 1482
Beef, acceptability of
Finished on all-forage, forage-plus-grain or high energy diets, 1181
Beef breeds and crosses
Palatability characteristics of the *longissimus* muscle of young bulls representing divergent, 387
Beef carcass composition
As influenced by yield and quality grade, 102
Quantitative estimates of, from specific gravity measurements and certain carcass traits of feedlot steers, 1246
Beef cattle
Additive and multiplicative correction factors for sex and age of dam in, weaning weight, 1217
Effects of Caesarean section, retained placenta and vaginal or uterine prolapse on subsequent fertility in, 916
Beef cattle, confined
Maternal response of, to single *versus* twin calves, 934
Beef cattle populations
Genetic parameter estimates based on selected and control, 57
Beef collagen characteristics
Nutritional effects on, and palatability, 1256
Beef cow
Effects of prepartum protein restriction in the, on immunoglobin content in blood and colostral whey and subsequent immunoglobulin absorption by the neonatal calf, 1174
Beef cows
Effect of once-a-day nursing on rebreeding efficiency of, 889
Beef cows, postpartum
Clearance of serum cortisol in suckled and nonsuckled, 1082
Beef cows, production in
Effect of monensin on efficiency of, 873
Beef heifers
Effects of zeranol on growth and ease of calf delivery in, 1325
Beef heifers, calving of
Growth relationships associated with first conception and, on Bermuda-fescue pasture, 580
Beef heifers, pregnancy rate among
From timed insemination following synchronization with a progestin treatment, 1
Beef heifers, prepubertal and pubertal
Luteinizing hormone secretion before and after ovariectomy in, 1545
Beef steers
Effects of monensin on site and extent of whole corn digestion and bacterial protein synthesis in, 1565
Influence of fasting and transit on ruminal and blood metabolites in, 7
Influence on, of two sequential short periods of feed and water deprivation, 907
Metal residues in tissues, animal performance and carcass quality with, grazing Pensacola bahiagrass pastures treated with liquid digested sludge, 146
Behavior of swine
Effects of group size and space allowance on performance and, 922
Bermuda-fescue pasture
Growth relationships associated with first conception and calving of beef heifers on, 580
Bermudagrasses, hybrid
Steer performance on coastal, Callie and other, 1188
Biological types of cattle (Cycle II)
Characterization of, IV. Postweaning growth and feed efficiency for steers, 332
Characterization of, V. Carcass wholesale cut composition, 992
Birth weight
Effects of maternal starvation on some blood metabolites, liver glycogen, and survival of piglets, 1504
Bitch, pubertal
Behavioral, ovarian and endocrine relationships in the, 182
Blood and colostral whey
Effects of prepartum protein restriction in the beef cow on immunoglobin content in, and subsequent immunoglobulin absorption by the neonatal calf, 1174
Blood lactate kinetics
In normal and stress-susceptible pigs, 1000
Blood measurements in steers and rats
Effects of ronnel on growth, endocrine function and, 217
Blood metabolites
Effects of maternal starvation on some, liver glycogen, birth weight and survival of piglets, 1504
Blood, portal, carotid and jugular
Ammonia toxicity in cattle. V. Ammonia concentration of lymph and, after the ingestion of urea, 494
Boars
Influence of prepubertal consumption of zearalenone on sexual development of, 1559
Selenium and reproductive function in, fed a low selenium diet, 1360
Boars, performance-tested
Comparison of selection index economic weights and prices paid for, 575
Boars, Yorkshire
Response to selection for feed efficiency in individually fed, 323
Body composition
Effects of buylene and propylene glycols on, and fatty acid synthetase in lambs, 1473
Body composition, empty
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. II., energetic efficiency and comparison of compositionally similar body weights, 898
Body weight and backfat at puberty
Effects of energy and dry matter intake on age, and on embryo mortality in gilts, 118
Body weights, compositionally similar
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. II. Empty

body composition, energetic efficiency and comparison of, 898
Bone strength
As a trait for assessing mineralization in swine: A critical review of techniques involved, 827
Bovine spermatozoa, fertility of
Effects of thawing temperature, number of spermatozoa and spermatozoal quality on, packaged in .5-ml French straws, 693
Bovine, the
The influence of early age masectomy and unilateral ovariectomy on reproductive performance of, 171
Breed and environment
Influence of sire, on live and carcass traits of heavy lambs, 1151
Breed and litter size in sheep
Relationship between, and maternal serum concentrations of placental lactogen, estradiol and progesterone, 1077
Breed and sex, influence of
Effect of level of energy intake and, on growth of fat tissue and distribution in the bovine carcass, 982
Breed composition of crossbreds, optimal
Estimation of genetic and maternal effects in crossbred cattle of Angus, Charolais and Hereford parentage. III., 347
Breed effects
Columbia and Suffolk terminal sire, 1225
Breed, the effects of
Diet, sex, location and slaughter weight on lamb growth, carcass composition and meat flavor, 376
Breeding evaluation of trotters
Measures of racetrack performance with regard to, 611
Breeds and crosses, beef
Palatability characteristics of the *longissimus* muscle of young bulls representing divergent, 387
Bull
Effect of unilateral castration and unilateral cryptorchidism on gonadtropin and testosterone response to gonadtropin releasing hormone in the, 1341
Bulls
Daily gain, feed efficiency and carcass traits of, as affected by early and late dietary protein levels, 26
Serum luteinizing hormone and testosterone in, during exposure to elevated ambient temperature, 1551
Bulls, Holstein
Testicular development and establishment of spermatogenesis in, 1645
Bulls, serially slaughtered
Characterization of cattle of a five-breed diallel. IV. Slaughter and carcass characters of, 62
Bulls, young
Palatability characteristics of the *longissimus* muscle of, representing divergent beef breeds and crosses, 387
Butylene and propylene glycols
Effects of, on body composition and fatty acid synthetase in lambs, 1473

## C

Caesarean section, effects of
Retained placenta and vaginal or uterine prolapse on subsequent fertility in beef cattle, 916
Calf
Ornithine decarboxylase, serum isocitrate dehydrogenase and clinical chemistry changes during thioacetamide-induced hepatotoxicity in a, 1658
Calf, neonatal
Effects of prepartum protein restriction in the beef cow on immunoglobin content in blood and colostral whey and subsequent immunoglobulin absorption by the, 1174
Calf delivery, ease of
Effects of zeranol on growth and, in beef heifers, 1325
Calves, bull
Effect of creep feeding, on dam most probable producing ability values, 567
Calves, early weaning
Effects of, from first-calf heifers on calf and heifer performance, 1193
Calves, Hereford and Simmental
Plasma growth hormone, prolactin and thyrotropin secretory patterns, in, 371
Calves, neonatal
Genetic differences in concentrations of immunoglobulins $G_1$ and M in serum and colostrum of cows and in serum of, 1465
Calves, Simmental-sired
Calving ease and growth rate of,. III. Direct and maternal effects, 1210
Calves, single *versus* twin
Maternal responses of confined beef cattle to, 934
Calves, weanling
Carcass characteristics of, grazed at three levels of forage availability, 892
Calving ease
And growth rate of Simmental-sired calves. III. Direct and maternal effects, 1210
Calving of beef heifers
Growth relationships associated with first conception and, on Bermuda-fescue pasture, 580
Cannula insertion instrument
Rumen and abomasal cannulation of sheep with specially designed cannulas and a, 790
Cannulas, specially designed
Rumen and abomasal cannulation of sheep with, and a cannula insertion instrument, 790
Cannulation, intestinal
Of cattle and sheep with a T-shaped cannula designed for total digesta collection without externalizing digesta flow, 796
Cannulation of sheep
Rumen and abomasal, with specially designed cannulas and a cannula insertion instrument, 790
Carcass, bovine
Effect of level of energy intake and influence of breed and sex on growth of fat tissue and distribution in the, 982
Carcass characteristics
Of weanling calves grazed at three levels of forage availability, 892

Carcass characteristics of lamb
Effect of physical form of the diet and stress on, 1489
Carcass characters of serially slaughtered bulls
Characterization of cattle of a five-breed diallel. IV. Slaughter and, 62
Carcass composition
The effects of breed, diet, sex, location and slaughter weight on lamb growth, and meat flavor, 376
Carcass composition, beef
As influenced by yield and quality grade, 102
Carcass lipid
Effect of maternal dietary energy source on glucose homeostasis, liver glycogen and, in the neonatal pig, 1316
Carcass merit
Effect of diethylstilbestrol on tissue gain and, of feedlot beef steers, 589
Carcass quality
Effect of electrical stimulation on, and meat palatability of beef from forage- and grain-finished steers, 651
Metal residues, animal performance and, with beef steers grazing Pensacola bahiagrass pastures treated with liquid digested sludge, 146
Carcass traits of bulls
Daily gain, feed efficiency and, as affected by early and late dietary protein levels, 26
Carcass traits of feedlot steers, certain
Quantitative estimates of beef carcass composition from specific gravity measurements and, 1246
Carcass wholesale cut composition, V.
Characterization of biological types of cattle (Cycle II), 992
Carcasses, intact
Electrical capacitance measurements on, 666
Cardiac rhythm in sheep
Effects of intraventricular injections of $Ca^{2+}$ and(or) $Mg^{2+}$ on eating behavior, water intake and, 317
Casein
Utilization of glucose, sucrose or cornstarch with, or isolated soybean protein supplemented with amino acids by eight-day-old pigs reared artificially, 1027
Castration, effect of unilateral
And unilateral cryptochidism on gonadotropin and testosterone respone to gonadotropin releasing hormone in the bull, 1341
Cats, adult
Acceptability and digestibility by, of diets made with various sources and levels of fat, 1516
Cattle
Diet quality and performance of, on forest and grassland range, 291
Growth and feed efficiency of, of different mature sizes, 354
Liver vitamin A slow release syndrome in, with a multiple nutrient imbalance, 758
Prevention of lactic acidosis in, by lasalocid or monensin, 206
Cattle, ammonia toxicity in
V. Ammonia concentration of lymph and portal, carotid and jugular blood after the ingestion of urea, 494
Cattle and sheep, intestinal cannulation of
With a T-shaped cannula designed for total digesta collection without externalizing digesta flow, 796
Cattle, biological types of
Characterization of, (Cycle II). V. Carcass wholesale cut composition, 992
Cattle, characterization of
Of a five-breed diallel. IV. Slaughter and carcass characters of serially slaughtered bulls, 62
Cattle diets, growing
Utilization of whole aspen tree material as a roughage component in, 551
Cattle, Limousin
Interactions involving sires, breed of dam and age of dam for performance characteristics in, 940
Cattle, pastured
Use of insecticide-impregnated ear tags for control of face flies and horn flies on, 1159
Cellulose digestion, *in vitro*
Effects of primary, secondary and tertiary amines on, and volatile fatty acid production by ruminal microorganisms, 226
Cellulose levels, dietary
Effects of, on intact and cecectomized pigs, 395
Cereal grains
Bioavailable pantothenic acid in, and soybean meal, 403
Characteristics, pubertal and growth
Genetic and phenotypic relationships between, in gilts, 946
Chicks and rats
Utilization of the D-isomers of arginine and histidine by chicks and rats, 125
Chloride salts, effect of
Acid phosphate and electrical stimulation on pH and moisture loss from beef clod muscles, 658
Chromium sesquioxide
Comparison of ytterbium chloride and, as fecal indicators, 1629
Citrus condensed molasses solubles
As an energy source for ruminants, 253
Coastal, Callie and other hybrid bermudagrasses
Steer performance on, 1188
Cold, effects of
And weaning stressors on the antibody-mediated immune response of pigs, 439
Collagen characteristics, beef
Nutrition effects on, and palatability, 1256
Combining abilities
Using diallel matings to estimate, and maternal effects in swine, 629
Committee reports, 1686
Committees
American Society of Animal Science, 1690
Computer evaluations of spermatozoal motility
Comparisons of, with standard laboratory tests and their use for predicting fertility, 1368
Computerized data acquisition systems
For dairy herd management, 531
Conception rate
Synchronization of ewes during anestrus: Influence of time of year and interval to onset of estrus on, 448
Conception rate, repeatability of
And litter size for ewes in an accelerated lambing system, 643
Consumption
Effect of graded levels of soybean meal and of a

nonprotein nitrogen molasses supplement on, and digestibility of wheat straw, 1609
Corn and wheat, utilization of
In diets of pigs weaned at 7 days of age, 683
Corn digestion, whole
Effects of monensin on site and extent of, and bacterial protein synthesis in beef steers, 1565
Corn plant residues
Ammonia treatment of,: Digestibilities and growth rates, 1592
Corn silage-corn grain mixtures
Nutrient digestibility depressions in, fed to steers, 1095
Corn, whole wheat
Ruminal characteristics as affected by monensin, type of protein supplement and proportions of, in forage-free diets fed to finishing steers, 1377
Cornstarch
Utilization of glucose, sucrose or, with casein or isolated soybean protein supplemented with amino acids by eight-day-old pigs reared artificially, 1027
Corpora lutea
Diminution of the *in vitro* response to luteinizing hormone by, induced by gonadotropin releasing hormone treatment of postpartum suckled beef cows, 749
Correction factors
Additive and multiplicative, for sex and age of dam in beef cattle weaning weights, 1217
Cottonseed meal
The effect of, on growth of young horses, 409
Cows and calves, performance of
Creep feed as a factor influencing, 33
Cows, postpartum Holstein
The relationships between energy balance, milk production and ovulation in, 742
Cows, postpartum suckled beef
Diminution of the *in vitro* response to luteinizing hormone by corpora lutea induced by gonadotropin releasing hormone treatment of, 749
Cows, serum and colostrum of
Genetic differences in concentrations of immunoglobulins $G_1$ and M in, and in serum of neonatal calves, 1465
Crambe meal, processed
Nutrition evaluation of, for rats, 1278
Creep feed
As a factor influencing performance of cows and calves, 33
Creep feeding, effect of
Bull calves on dam most probable producing ability values, 567
Crossbred cattle of Angus, Charolais and Hereford parentage
Estimation of genetic and maternal effects in, III. Optimal breed composition of crossbreds, 347
Crosses, comparisons of specific
From Landrace, Duroc-Landrace and Yorkshire-Landrace sows, 40
Cryptorchidism, unilateral
Effect of unilateral castration and, on gonadotropin and testosterone response to gonadotropin releasing hormone in the bull, 1341
Cultures, continuous
Selection of oxalate degrading rumen bacteria in, 810

## D

Dairy herd management
Computerized data acquisition systems for, 531
Dam
Effect of creep feeding bull calves on, most probable producing ability values, 567
Dam, sex and age of
Additive and multiplicative correction factors for, in beef cattle weaning weight, 1217
Data acquisition systems, computerized
For dairy herd management, 531
Decapitation
Adipose tissue development in the fetal pig after, 1634
D-Galactose and L-Leucine, D-Glucose
Intestinal absorption of, in male growing rats fed a raw field bean (*Vicia faba* L.) diet, 414
D-Glucose, D-Galactose and L-Leucine
Intestinal absorption of, in male rats fed a raw field bean (*Vicia faba* L.) diet, 414
Diallel, a five-breed
Characterization of cattle of, IV. Slaughter and carcass characteristics of serially slaughtered bulls, 62
Diallel, matings
Using, to estimate combining abilities and maternal effects in swine, 629
Diameters of bovine adipocytes
Examination of a lognormal distribution equation for describing distributions of, 1236
Diet
The effects of breed, sex, location and slaughter weight on lamb growth, carcass composition and meat flavor, 376
Diet, a low selenium
Selenium and reproductive function in boars fed, 1360
Diet, effect of starter
And length of feeding regimen on performance and digestive enzyme activity of 2-week-old weaned pigs, 299
Diet, physical form of the
Effect of, and stress on carcass characteristics of lamb, 1489
Diet quality
And performance of cattle on forest and grassland range, 291
Dietary additives and antibiotics
Performance of growing-finishing swine fed high levels of alfalfa meal: Effects of alfalfa level, 308
Dietary cellulose levels
Effects of, on intact and cecectomized pigs, 395
Dietary fat, supplemental
For peripartal sows: A review, 107
Dietary ingredients
Evaluation of byproduct feedstuffs as, for dogs, 1538
Diethylstilbestrol, effect of
On tissue gain and carcass merit of feedlot beef steers, 589
Diets
Acceptability and digestibility by adult cats of, made with various sources and levels of fat, 1516
*In vitro* and *in vivo* protein digestion in pigs fed,

containing soybean protein isolates with different physical porperties, 1297
Nutrition and management of early-weaned pigs, for protecting rotavirus-exposed pigs weaned at 1 to 5 days of age, 677
Diets, all-concentrate
Ruminal characteristics in steers as affected by adaptation from forage to, 1383
Diets, all-forage, forage-plus-grain, or high energy
Acceptability of beef finished on, 1181
Diets, forage-free
Ruminal characteristics as affected by monensin, type of protein supplement and proportions of whole wheat corn in, fed to finishing steers, 1377
Diets for yearling horses
Lysine supplementation of, 1496
Diets, growing cattle
Utilization of whole aspen tree material as a roughage in, 551
Diets of pigs
Utilization of corn and wheat in, weaned at 7 days of age, 683
Diets, orchardgrass
Intake, digestibility, ruminal characteristics and rate of passage of, fed to sheep, 489
Diets, ruminant
Assessing minimum amounts and form of roughages in,: Roughage value index system, 1406
Digesta flow
Intestinal cannulation of cattle and sheep with a T-shaped cannula designed for total digesta collection without externalizing digesta flow, 796
Digestibility
Intake, ruminal characteristics and rate of passage of alfalfa diets fed to sheep, 774
Of three grass hays by the horse and scanning electron microscopy of undigested leaf remnants, 1671
Digestibility, acceptability and
By adult cats of diets made with various sources and levels of fat, 1516
Digestibility, *in vivo*
Evaluation of single-cell protein from pulp mills: Laboratory analyses and, 1601
Digestibility, nutrient
And performance of pigs fed sorghums varying in tannin concentration, 1524
Digestibility of wheat straw
Effect of graded levels of soybean meal and of a nonprotein nitrogen molasses supplement on consumption and, 1609
Digestibility, soybean hull
By sows and feeding value for growing-finishing swine, 138
Digestion, *in vitro*
Of soybean meal treated with formaldehyde, 1616
Dilution rate effects
Nicotinic acid and, on *in vitro* fermentation efficiency, 1104
D-isomers, utilization of the
Of arginine and histidine by chicks and rats, 125
Dogs
Evaluation of byproduct feedstuffs as dietary ingredients for, 1538
Domestic animals
Aspects of *in vitro* fertilization and embryo culture in, 702
Dry matter intake
Effects of energy and, on age, body weight and backfat at puberty and on embryo mortality in gilts, 118
Drying
The effects of floor temperature, supplemental heat and, at birth on neontal swine, 1424

## E

Early experience, effects of
On the learning ability of yearling horses, 1204
Ear tags
Use of insecticide-impregnated, for control of face flies and horn flies on pastured cattle, 1159
Eating behavior
Effects of intraventricular injections of $Ca^{2+}$ and(or) $Mg^{2+}$ on, water intake and cardiac rhythm in sheep, 317
Economic weights, selection index
Comparison of, and prices paid for performance-tested boars, 575
Editorial Policy and Procedures
Of the Journal of Animal Science, 845
Electrical capacitance measurements
On intact carcasses, 666
Electrical stimulation
Effect of chloride salts, acid phosphate and, on pH and moisture loss from beef clod muscles, 658
Electrical stimulation, effect of
On carcass quality and meat palatability of beef from forage-and grain-finished steers, 651
Electronic identification system
Development of a national, for livestock, 524
Electron microscopy, scanning
Digestibility of three grass hays by the horse and, of undigested leaf remnants, 1671
Embryo culture
Aspects of *in vitro* fertilization and, in domestic animals, 702
Embryo mortality
Effects of energy and dry matter intake on age, body weight and backfat at puberty and on embryo mortality in gilts, 118
Embryonic survival in ewes
Fertilization and, synchronized with exogenous hormones during the anestrous and estrous seasons, 458
Endocrine function
Effects of ronnel on growth, and blood measurements in steers and rats, 217
Energetic efficiency
Charolais and Angus steers slaughtered at equal percentages of mature cow weight. II. Empty body composition, and comparison of compositionally similar body weights, 898
Energy balance
The relationships between, milk production and ovulation in postpartum Holstein cows, 742
Energy, effects of
And dry matter intake on age, body weight and backfat at puberty and on embryo mortality in gilts, 118

Energy intake, effect of level of
And influence of breed and sex on growth of fat tissue and distribution in the bovine carcass, 982
Energy requirements
Contribution of mixtures of three chaparral shrubs to the protein and, of Spanish goats, 1391
Energy source
Citrus condensed molasses solubles as an, for ruminants, 253
Energy source, maternal dietary
Effect of, on glucose homeostasis, liver glycogen and carcass lipid in the neonatal pig, 1316
Energy, supplemental
Effect of level and form of, and nitrogen on utilization of low quality roughage by sheep, 479
Ensiling, wilting and
Changes in alfalfa haylage during, with and without additives, 765
Environment
Influence of sire, breed and, on live and carcass traits of heavy lambs, 1151
Environmental and interaction effects, genetic
On lamb survival, cumulative lamb production and longevity of crossbred ewes, 966
Environmental effects
Some genetic and, on sow productivity, 601
Enzyme activity, digestive
Effect of starter diet and length of feeding regimen on performance and, of 2-week-old weaned pigs, 299
Equine third metacarpal
Estimation of mineral content of the, by radiographic photometry, 1019
Errata, 837, 1417, 1717
Estradiol
Development of a homologous radioimmunoassay for ovine follicle stimulating hormone: Studies after estrus, ovariectomy, and releasing hormone, 730
The relationship between breed and litter size in sheep and maternal serum concentrations of placental lactogen, and progesterone, 1077
Estradiol and progesterone
Estrogen and progestogen binding in the myometrium of the ewe. II. Regulation by, 1070
Estradiol valerate
Endogenous hormone response and fertility in dairy heifers treated with norgestomet and, 1333
Estrogen and progestogen binding
In the myometrium of the ewe. I. During the estrous cycle, 1057
In the myometrium of the ewe. II. Regulation by estradiol and progesterone, 1070
Estrous cycle
Estrogen and progestogen binding in the myometrium of the ewe. I. During the, 1057
Estrus
And fertility in lactating sows and piglet performance as influenced by limited nursing, 1419
Development of a homologous radioimmunoassay for ovine follicle stimulating hormone: Studies after, ovariectomy, estradiol and releasing hormone, 730
Estrus, first *versus* third
Reproductive performance of gilts bred on, 19
Estrus, interval to
In sows and performance of pigs after alteration of litter size during late lactation, 177
Estrus, onset of
Synchronization of ewes during anestrus: Influence of time of year and interval to, on conception rate, 448
Evaluation, nutritional
Of processed crambe meal for rats, 1278
Ewe, myometrium of the
Estrogen and progestogen binding in the,. I. During the estrous cycle, 1057
Estrogen and progestogen binding in the,. II. Regulation by estradiol and progesterone, 1070
Ewes
Fertilization and embryonic survival in, synchronized with exogenous hormones during the anestrous and estrous seasons, 458
Repeatability of conception rate and litter size for, in an accelerated lambing system, 643
Ewes, fluorogestone acetate PMSG-treated
Effects of prostaglandin $F_2\alpha$ and pregnant mares' serum gonadotropin (PMSG) on the reproductive performance of, 154
Ewes, longevity of crossbred
Genetic, environmental and interaction effects on lamb survival, cumulative lamb production and, 966
Ewes, synchronization of
During anestrus: Influence of time of year and interval to onset of estrus on conception rate, 448
Eyes of the herdsman, the
Automating, 516

## F

Fasting, influence of
And transit on ruminal and blood metabolites in beef steers, 7
Fasting plasma hormones and metabolites
In feral and domestic newborn pigs, 420
Fat deposition
Postnatal maternal effects on growth and, in mice selected for large and small size, 952
Fat, levels of
Acceptability and digestibility by adult cats of diets made with various sources and, 1516
Fat, supplemental dietary
For peripartal sows: A review, 107
Fat supplementation, dietary
Interactive effects of season of year and, lysine source and lysine level on the performance of swine, 1269
Fat tissue, growth of
Effect of level of energy intake and influence of breed and sex on, and distribution in the bovine carcass, 982
Fatty acid composition
Of adipose tissue from lean and obese swine, 977
Fatty acid production, volatile
Effects of primary, secondary and tertiary amines on *in vitro* cellulose digestion and, by ruminal microorganisms, 226
Fatty acid synthetase in lambs
Effects of butylene and propylene glycols on body composition and, 1473

Fecal indicators
Comparison of ytterbium chloride and chromium sesquioxide as, 1629
Feed and water deprivation
Influence on beef steers of two sequential short periods of, 907
Feed efficiency
Daily gain, and carcass traits of bulls as affected by early and late dietary protein levels, 26
Response to selection for, in individually fed Yorkshire boars, 323
Feed efficiency of cattle
Growth and, of different mature sizes, 354
Feed efficiency of steers
Characterization of biological types of cattle (Cycle II). IV. Postweaning growth and, 332
Feed ingredient, a
Value of peanut skins (testa) as, for growing-finishing swine, 1006
Feeding regimen, length of
Effect of starter diet and, on performance and digestive enzyme activity of 2-week-old weaned pigs, 299
Feeding value
Of slowly degraded proteins, 1109
Soybean digestibility by sows and, for growing-finishing swine, 138
Feed intake of sheep, voluntary
Influence of intrajugular administration of insulin, glucagon and propionate on, 427
Feedlot beef steers
Effect of diethylstilbestrol on tissue gain and carcass merit of, 589
Feedlot cattle
Growth and muscle development o , of different genetic backgrounds, 91
Feedlot cattle performance
Comparison of the growth of two forms and two levels of lasalocid with monensin on, 1440
Feedlot performance of growing steers
Influence of viable yeast culture, sodium bicarbonate and monensin on liquid dilution rate, rumen fermentation and, and digestibility in lambs, 780
Feedlot performance of steers and lambs
Fed blood meal, meat and bone meal, dehydrated alfalfa and soybean meal as supplemental protein sources, 1198
Feedstuffs, byproduct
Evaluation of, as dietary ingredients for dogs, 1538
Fermentation efficiency, *in vitro*
Nicotinic acid and dilution rate effects on, 1104
Fermentation *in vitro*
Monensin and lasalocid effects on, 1574
Fertility
Comparison of computer evaluations of spermatozoal motility with standard laboratory tests and their use for predicting, 1368
Estrus and, in lactating sows and piglet performance as influenced by limited nusing, 1419
Fertility in beef cattle
Effects of Caesarean section, retained placenta and vaginal or uterine prolapse on subsequent, 916
Fertility in dairy heifers
Endogenous hormone response and, treated with norgestomet and estradiol valerate, 1333
Fertility of bovine spermatozoa
Effect of thawing temperature, number of spermatozoa and spermatozoal quality on, packaged in .5-ml French straws, 693
Fertilization
And embryonic survival in ewes synchronized with exogenous hormones during the anestrous and estrous seasons, 458
Fertilization, *in vitro*
Aspects of, and embryo culture in domestic animals, 702
Fescue, tall
Sulfur, nitrate and starch supplementation of, for the ovine, 1135
Fiber, dietary
And antibiotic interactions on nutritional and metabolic parameters in the growing pig, 1309
First-calf Brahman X Hereford heifers
Effect of once daily suckling on postpartum interval and cow-calf performance of first-calf Brahman X Hereford heifers, 755
Flies, face and horn
Use of insecticide-impregnated ear tags for control of, on pastured cattle, 1159
Flooring material, effect of
And number of pigs per pen on nursery pig performance, 863
Flooring materials
Pigs per cage and use of oats in starter diets for pigs housed in triple deck nurseries, 130
Flumethasone
Effect of day of gestation on induction of lambing with, 564
Forage
Ruminal characteristics in steers affected by adaptation from, to all-concentrate diets, 1383
Forage availability
Carcass characteristics of weanling calves grazed at three levels of, 892
Forages and grain, varied levels of
Microbiological, vacuum packing and palatability attributes of beef produced at, 1482
Formaldehyde
*In vitro* digestion of soybean meal treated with, 1616
Freezer, programmed
Effect of bulk freezing straws of bovine spermatozoa in a, on post-thaw survival, 1432
French straws, .5-ml
Effects of thawing temperature, number of spermatozoa quality on fertility of bovine spermatozoa packaged in, 693

## G

Gain, daily
Feed efficiency and carcass traits of bulls as affected by early and late dietary protein levels, 26
Galactose and Leucine, Glucose
Intestinal absorption of, in male growing rats fed a raw field bean (*Vicia faba* L.) diet, 414
Genetic and environmental effects, some
On sow productivity, 601
Genetic and maternal effects, estimation of
In crossbred cattle of Angus, Charolais and Here-

ford parentage. III. Optimal breed composition of crossbreds, 347
Genetic differences
In concentrations of immunoglobulins $G_1$ and M in serum and colostrum of cows and in serum of neonatal calves, 1465
Genetic, environmental and interaction effects
On lamb survival, cumulative lamb production and longevity of crossbred ewes, 966
Genetic parameter estimates
Based on selected and control beef cattle populations, 57
Genetic-pen density interactions
Estimates of, in production traits of swine, 1166
Gestation and lactation
Antibody response and serum protein and immunoglobulin in pigs from sows fed different protein sequences during, 1262
Gestation, day of
Effect of, on induction of lambing with flumethasone, 564
Gilts
Genetic and phenotype relationships between pubertal and growth characteristics in, 946
Reproductive performance of, bred on first *versus* third estrus, 19
Gilts, embryo mortality in
Effects of energy and dry matter intake on age, body weight and backfat at puberty and on, 118
Gilts, hormonal patterns in
Ovarian activity and, fed allyl trenbolone, 1088
Glucagon and propionate, insulin
Influence of intrajugular administration of, on voluntary feed intake of sheep, 427
Glucocorticoid receptors
Androgen and, in porcine skeletal muscle, 80
Glucose, Galactose and Leucine
Intestinal absorption of, in male rats fed a raw field bean (*Vicia faba* L.) diet, 414
Glucose homeostasis
Effect of maternal dietary energy source on, liver glycogen and carcass lipid in the neonatal pig, 1316
Glucose, sucrose or cornstarch, utilization of
With casein or isolated soybean protein supplemented with amino acids by eight-day-old pigs reared artificially, 1057
Goats
Digestion and utilization of nutrients in oak browse by, 283
Goats, Spanish
Contribution of mixtures of three chaparral shrubs to the protein and energy requirements of, 1391
Gonadotropin
Effect of unilateral castration and unilateral cryptorchidism on, and testosterone response to gonadotropin releasing hormone in the bull, 1341
Gonadotropin releasing hormone treatment
Diminution of the *in vitro* response to luteinizing hormone by corpora lutea induced by, of postpartum suckled beef cows, 749
Grain, levels of forages and
Microbiological, vacuum packaging and palatability attributes of beef produced at varied, 1482
Grass hays
Digestibility of three, by the horse and scanning electron microscopy of undigested leaf remnants, 1634
Group size, effects of
And space allowance on performance and behavior of swine, 922
Growth
The effect of urea or soybean meal on the, and protein status of young horses, 670
Growth and fat deposition in mice
Postnatal maternal effects on, selected for large and small size, 952
Growth and feed efficiency of cattle
Of different mature sizes, 354
Growth and muscle development
Of feedlot cattle of different genetic backgrounds, 91
Growth, effects of zearalenol on
Endocrine function and blood measurements in steers and rats, 217
Growth, effects of zeranol on
And ease of calf delivery in beef heifers, 1325
Growth hormone
Age-associated changes in secretory patterns of, prolactin and thyrotropin and the hormonal responses to thyrotropin-releasing hormone in rams, 160
Growth hormone in pigs
Metabolic actions of, 363
Growth in rats
Selection for increased rate or efficiency of lean: Correlated responses in reproductive performance, 1458
Growth of young horses
The effect of cottonseed meal on, 409
Growth, postweaning
Characterization of biological types of cattle (Cycle II). IV., and feed efficiency of steers, 332
Reciprocal recurrent selection in swine:, 1446
Growth rate
Calving ease and, of Simmental-sired calves. III. Direct and maternal effects, 1210
Growth rates
Ammonia treatment of corn plant residues: Digestibilities and, 1592
Growth relationships
Associated with first conception and calving of beef heifers on Bermuda-fescue pasture, 580

## H

Haylage, alfalfa
Changes in, during wilting and ensiling with and without additives, 765
Hay, weathered prairie
Abomasal nutrient infusion of steers fed, 1401
Heat, supplemental
The effects of floor temperature, and drying at birth on neonatal swine, 1424
Hebb-Williams closed field maze
Learning abilities in yearling horses using the, 928
Heifers, dairy
Endogenous hormone response and fertility in, treated with norgestomet and estradiol valerate, 1333

Heifers, first-calf
Effects of early weaning calves from, on calf and heifer performance, 1193
Hematic iron status in weanling pigs
Effect of dietary vitamin C addition on performance, plasma vitamin C and, 1292
Hepatotoxicity, thioacetamide-induced
Ornithine decarboxylase, serum isocitrate dehydrogenase and clinical chemistry changes during, in a calf, 1658
Herdsman, the
Automating the eyes of, 516
Herefords under commercial conditions
Heritabilities for growth and carcass traits estimated from data on, 49
Heritabilities for growth and carcass traits
Estimated from data on Herefords under commercial conditions, 49
Histidine, the D-isomers of arginine and
Utilization of, by chicks and rats, 125
Hormonal patterns in gilts
Ovarian activity and, fed allyl trenbolone, 1088
Hormonal responses
Age-associated changes in secretory patterns of growth hormone, prolactin and thyrotropin and the, to thyrotropin-releasing hormone in rams, 160
Hormone, gonadotropin releasing
Effect of unilateral castration and unilateral cryptorchidism on gonadotropin and testosterone response to, in the bull, 1341
Hormone, luteinizing
Diminution of the *in vitro* response to, by corpora lutea induced by gonadotropin releasing hormone treatment of postpartum suckled beef cows, 749
Hormone, ovine follicle stimulating
Development of a homologous radioimmunoassay for,: Studies after estrus, ovariectomy, estradiol and releasing hormone, 730
Hormone response, endogenous
And fertility in dairy heifers treated with norgestomet and estradiol valerate, 1333
Hormone secretion, lutienizing
Before and after ovariectomy in prepubertal and pubertal beef heifers, 1545
Hormone, serum luteinizing
And testosterone in bulls during exposure to elevated ambient temperature, 1551
Hormones, exogenous
Fertilization and embryonic survival in ewes synchronized with, during and anestrous and estrous seasons, 458
Hormones, fasting plasma
And metabolites in feral and domestic newborn pigs, 420
Horse
Digestibility of three grass hays by the, and scanning electron microscopy of undigested leaf remnants, 1671
Horses, yearling
Effects of early experience on the learning ability of, 1204
Learning abilities in, using the Hebb-Williams closed field maze, 928
Lysine supplementation of diets for, 1496
Horses, young
The effect of cottonseed meal on growth of, 409
The effect of urea or soybean meal on the growth and protein status of, 670

## I

Identification system for livestock
Development of a national electronic, 524
Immunoglobin content
Effects of prepartum protein restriction in the beef cow on, in blood and colostral whey and subsequent immunoglobulin absorption by the neonatal calf, 1174
Immunoglobulin absorption
Effects of prepartum protein restriction in the beef cow on immunoglobin content in blood and colostral whey and subsequent, by the neonatal calf, 1174
Immunoglobulins $G_1$ and M
Genetic differences in concentrations of, in serum and colostrum of cows and in serum of neonatal calves, 1465
Inbreeding effects
Selection for increased leanness of Yorkshire swine. III., on secondary traits, 620
Index system, roughage value
Assessing minimum amounts and form of roughages in ruminant diets:, 1406
Information for contributors
Journal of Animal Science. Editorial policy and procedures, style and form, 845
Insemination, timed
Pregnancy rate among beef heifers from, following synchronization with a progestin treatment, 1
Insulin, intrajugular administration of
Influence of, glucagon and propionate on voluntary feed intake of sheep, 427
Intake
Digestibility, ruminal characteristics and rate of passage of alfalfa diets fed to sheep, 774
Digestibility, ruminal characteristics and rate of passage of orghardgrass diets fed to sheep, 489
Interactions
Involving sires, breed of dam and age of dam for performance characteristics in Limousin cattle, 940
Intestinal absorption
Of D-Glucose, D-Galactose and L-Leucine in male growing rats fed a raw field bean (*Vicia faba* L.) diet, 414
Intestine function, large
Effect of sunflower hulls on, in finishing swine, 1286
Intraventricular injections of $Ca^{2+}$ and(or) $Mg^{2+}$
Effects of, on eating behavior, water intake and cardiac rhythm in sheep, 317

## J

Journal of Animal Science
Editorial policy and procedures, style and form, information for contributors, 845

## K

Kinetics, blood lactate
In normal and stress-susceptible pigs, 1000

## L

Laboratory analyses
Evaluation of single-cell protein from pulp mills:, and *in vivo* digestibility, 1601
Laboratory investigations
Of hydroxide-treated sunflower or alfalfa-grass silage, 1623
Lactation, gestation and
Antibody response and serum protein and immunoglobulin in pigs from sows fed different protein sequences during, 1262
Lactation, late
Interval to estrus in sows and performance of pigs after alteration of litter size during, 177
Lactic acidosis, prevention of
In cattle by lasalocid or monensin, 206
Lactogen, placental
The relationship between breed and litter size in sheep and maternal serum concentrations of, estradiol and progesterone, 1077
Lamb, carcass characteristics of
Effect of physical form of the diet and stress on, 1489
Lamb growth, carcass composition and meat flavor
The effects of breed, diet, sex, location and slaughter weight on, 376
Lambing, induction of
Effect of day of gestation on, with flumethasone, 564
Lambing system
Repeatability of conception rate and litter size for ewes in an accelerated, 643
Lamb productivity, cumulative
Genetic, environmental and interaction effects on lamb survival, and longevity of crossbred ewes, 966
Lamb survival
Genetic, environmental and interaction effects on, cumulative lamb production and longevity of crossbred ewes, 966
Lambs
Effects of butylene and propylene glycols on body composition and fatty acid synthetase in, 1473
Feedlot performance of steers and, fed blood meal, meat and bone meal, dehydrated alfalfa and soybean meal as supplemental protein sources, 1198
Lambs, digestibility in
Influence of viable yeast culture, sodium bicarbonate and monensin on liquid solution rate, rumen fermentation and feedlot performance of growing steers and, 780
Lambs, forage-fed
Effect of monensin on the performance of, 869
Lambs, heavy
Influence of sire, breed and environment on live and carcass traits of, 1151
Lasalocid
Prevention of lactic acidosis in cattle by, or monensin, 206
Lasalocid effects
Monensin and, on fermentation *in vitro*, 1574
Lasalocid, two levels of
Comparison of the growth of two forms and, with monensin on feedlot cattle performance, 1440
Leaf remnants, undigested
Digestibility of three grass hays by the horse and scanning electron microscopy of, 1671
Leanness of Yorkshire swine, increased
Selection for, III. Inbreeding effects on secondary traits, 620
Learning abilities
In yearling horses using the Hebb-Williams closed field maze, 928
Learning ability
Effects of early experience on the, of yearling horses, 1204
L-Leucine
Intestinal absorption of D-Glucose, D-Galactose and, in male growing rats fed a raw field bean (*Vicia faba* L.) diet, 414
Lighting, supplemental
Failure of stress and, to affect release of prolactin in swine, 467
Liquid dilution rate
Influence of viable yeast culture, sodium bicarbonate and monensin on, rumen fermentation and feedlot performance of growing steers and digestibility in lambs, 780
Litter size
Repeatability of conception rate and, for ewes in an accelerated lambing system, 643
Litter size, alteration of
Interval to estrus in sows and performance of pigs after, during late lactation, 177
Litter size in sheep
The relationship between breed and, and maternal serum concentrations of placental lactogen, estradiol and progesterone, 1077
Liver glycogen
Effect of maternal dietary energy source on glucose homeostasis, and carcass lipid in the neonatal pig, 1316
Effects of maternal starvation on some blood metabolites, birth weight and survival of piglets, 1504
Liver vitamin A
Slow release syndrome in cattle with a multiple nutrient imbalance, 758
Livestock
Development of a national electronic identification system for, 524
Location
The effects of breed, diet, sex, and slaughter weight on lamb growth, carcass composition and meat flavor, 376
Lognormal distribution equation
Of a, describing distributions of diameters of bovine adipocytes, 1236
Longevity of crossbred ewes
Genetic, environmental and interaction effects on lamb survival, cumulative lamb production and, 966
*Longissimus* muscle, the
Palatability characteristics of, of young bulls representing divergent beef breeds and crosses, 387

Luteinizing hormone surge
Effect of mating on the, in the pig, 434
Lymph, ammonia concentration of
Ammonia toxicity in cattle. V., and portal, carotid and jugular blood after the ingestion of urea, 494
Lysine source and lysine level
Interactive effects of season of year and, on the performance of swine, 1269
Lysine supplementation
Of diets for yearling horses, 1496

## M

Management, dairy herd
Computerized data acquisition systems for, 531
Mastectomy, early age
The influence of, and unilateral ovariectomy on reproductive performance of the bovine, 171
Maternal effects, direct and
Calving ease and growth rate of Simmental-sired calves. III., 1210
Maternal effects in crossbred cattle
Estimation of genetic and, of Angus, Charolais and Hereford parentage. III. Optimal breed composition of crossbreds, 347
Maternal effects in swine
Using diallel matings to estimate combining abilities and, 629
Maternal effects, postnatal
On growth and fat deposition in mice selected for large and small size, 952
Maternal responses
Of confined beef cattle to single *versus* twin calves, 914
Maternal starvation, effects of
On some blood metabolites, liver glycogen birth weight and survival of piglets, 1504
Mating, effect of
On the luteinizing hormone surge in the pig, 434
Mature cow weight
Charolais and Angus steers slaughtered at equal percentages of,. II. Empty body composition, energetic efficiency and comparison of compositionally similar body weights, 898
Mature sizes, different
Growth and feed efficiency of cattle of, 354
Maze, Hebb-Williams closed field
Learning abilities in yearling horses using the, 928
Meal, blood
Feedlot performance of steers and lambs fed, meat and bone meal, dehydrated alfalfa and soybean meal as supplemental protein sources, 1198
Measurements, electrical capacitance
On intact carcasses, 666
Meat and bone meal
Feedlot performance of steers and lambs fed blood meal, dehydrated alfalfa and soybean meal as supplemental protein sources, 1198
Meat flavor
The effects of breed, sex, location and slaughter weight on lamb growth, carcass composition and, 376
Meat palatability
Effect of electrical stimulation on carcass quality and, of beef from forage- and grain-finished steers, 651
Memorials
Marvin W. Heeney, 843
John I. Miller, 842
Paul Foster Newell, 842
Vincent A. Raaf, 550
George M. Van Dyne, 843
Dennis Errol West, 1417
Metabolic actions
Of growth hormone in pigs, 363
Metabolites
Fasting plasma hormones and, in feral and domestic newborn pigs, 420
Metabolites, ruminal and blood
Influence of fasting and transit on, in beef steers, 7
*Metastrongylus apri*
Anthelmintic activity of albendazole against adult in artificially infected swine, 1511
Mice selected for large and small size
Postnatal maternal effects on growth and fat deposition in, 952
Microorganisms, ruminal
Effects of primary, secondary and tertiary amines on *in vitro* digestion and volatile fatty acid production by, 226
Utilization of urea, uric acid and caged layer waste by, continuously cultured *in vitro*, 1581
Midwestern section ASAS
Photographs from the annual meeting of the, 545
Younger animal scientist extension award, 547
Younger animal scientist research award, 548
Younger animal scientist teaching award, 549
Milk production
The relationships between energy balance, and ovulation in postpartum Holstein cows, 742
Milk protein
Influence of the partial replacement of, by soybean protein isolates with different physical properties on the performance and nitrogen digestibility of early-weaned pigs, 1011
Mineral content, estimation of
Of the equine third metacarpal by radiographic photometry, 1019
Mineralization in swine
Bone strength as a trait for assessing,: A critical review of techniques involved, 827
Minutes of the 73rd Annual Business Meeting, 1678
Mixtures, contribution of
Of three chaparral shrubs to the protein and energy requirements of Spanish goats, 1391
Moisture loss
Effect of chloride salts, acid phosphate and electrical stimulation on pH and, from beef clod muscles, 658
Molasses solubles, citrus condensed
As an energy source for ruminants, 253
Molasses supplement, nonprotein nitrogen
Effect of graded levels of soybean meal and of a, on consumption and digestibility of wheat straw, 1609
Monensin
And lasalocid effects on fermentation *in vitro*, 1574
Comparison of the growth of two forms and two

levels of lasalocid with, on feedlot cattle performance, 1440
Influence of viable yeast culture, sodium bicarbonate and, on liquid dilution rate, rumen fermentation and feedlot performance of growing steers and digestibility in lambs, 780
Prevention of lactic acidosis in cattle by lasalocid or, 206
Ruminal characteristics as affected by, type of protein supplement and proportions of whole wheat corn in forage-free diets fed to finishing steers, 1377
Monensin, effect of
On breakdown of protein by ruminal microorganisms *in vitro*, 803
On efficiency of production in beef cows, 873
On the performance of forage-fed lambs, 869
Monensin, effects of
On site and extent of whole corn digestion and bacterial protein synthesis in beef steers, 1565
Muscle development of feedlot cattle
Growth and, of different backgrounds, 91
Muscle, porcine skeletal
Androgen and glucocorticoid receptors in, 80
Muscle, the quantity of
Prediction equations for estimating, in 25- to 45-kg pigs, 663
Muscles, beef clod
Effect of chloride salts, acid phosphate and electrical stimulation on pH and moisture loss from, 658

## N

News and Notes, 260, 537, 836, 1143, 1412, 1714
Nicotinic acid
And dilution rate effects on *in vitro* fermentation efficiency, 1104
Nitrate and starch supplementation
Sulfur, of tall fescue for the ovine, 1135
Nitrogen
Effect of level and form of supplemental energy and, on utilization of low quality roughage by sheep, 479
Nitrogen digestibility
Influence of the partial replacement of milk protein by soybean protein isolates with different physical properties on the performance and, of early-weaned pigs, 1011
Norgestomet and estradiol valerate
Endogenous hormone response and fertility in dairy heifers treated with, 1333
Nurseries, triple deck
Flooring materials, pigs per cage and use of oats in starter diets for pigs housed in, 130
Nursing, limited
Estrus and fertility in lactating sows and piglet performance as influenced by, 1419
Nursing, once-a-day
Effect of, on rebreeding efficiency of beef cows, 889
Nutrient digestibility depressions
In corn silage-corn grain mixtures fed to steers, 1095
Nutrient imbalance, multiple
Liver vitamin A slow release syndrome in cattle with a, 758
Nutrient infusion, abomasal
Of steers fed weathered prairie hay, 1401
Nutrients in oak browse
Digestion and utilization of, by goats, 283
Nutrition
And management of early weaned pigs: Diets for protecting rotavirus exposed pigs weaned at 1 to 5 days of age, 677
Nutritional effects
On beef collagen characteristics and palatability, 1256

## O

Oak browse
Digestion and utilization of nutrients in, by goats, 283
Oats in starter diets, use of
Flooring materials, pigs per cage and, for pigs housed in triple deck nurseries, 130
Orchardgrass diets fed to sheep
Intake, digestibility, ruminal characteristics and rate of passage of, 489
Ornithine decarboxylase
Serum isocitrate dehydrogenase and clinical chemistry changes during thioacetamide-induced hepatotoxicity in a calf, 1658
Ovarian activity
And hormonal patterns in gilts fed allyl trenbolone, 1088
Ovariectomy
Development of a homologous radioimmunoassay for ovine follicle stimulating hormone: Studies after estrus, estradiol and releasing hormone, 730
Luteinizing hormone secretion before and after, in prepubertal and pubertal beef heifers, 1545
Ovariectomy, unilateral
The influence of early age mastectomy and, on reproductive performance of the bovine, 171
Ovine
Sulfur, nitrate and starch supplementation of tall fescue for the, 1135
Ovine follicles
Preovulatory changes in prostaglandins $E_2$ and $F_2\alpha$ in, 192
Ovulation
The relationships between energy balance, milk production and, in postpartum Holstein cows, 742
Oxalate degrading rumen bacteria
Selection of, in continuous cultures, 810

## P

Packaging, vacuum
Microbiological, and palatability attributes of beef produced at varied levels of forages and grain, 1482
Palatability
Nutritional effects on beef collagen characteristics and, 1256
Palatability attributes
Microbiological, vacuum packaging and, of beef

produced at varied levels of forages and grain, 1482
Palatability characteristics
Of the *longissimus* muscle of young bulls representing divergent beef breeds and crosses, 387
Panthothenic acid, bioavailable
In cereal grains and soybean meal, 403
Parameters, nutritional and metabolic
Dietary fiber and antibiotic interactions on, in the growing pig, 1309
Peanut skins (testa), value of
As a feed ingredient for growing-finishing swine, 1006
Performance
Effect of dietary vitamin C addition on, plasma vitamin C and hematic iron status in weanling pigs, 1292
Effect of starter diet and length of feeding regimen on, and digestive enzyme activity of 2-week-old pigs, 299
Influence of partial replacement of milk protein by soybean protein isolates with different physical properties on the, and nitrogen digestibility of early-weaned pigs, 1011
Performance and behavior of swine
Effects of group size and space allowance on, 922
Performance, calf and heifer
Effects of early weaning calves from first-calf heifers on, 1193
Performance characteristics in Limousin cattle
Interactions involving sires, breed of dam and age of dam for, 940
Performance, cow-calf
Effect of once daily suckling on postpartum interval and, of first-calf Brahman X Hereford heifers, 755
Performance of cattle
Diet quality and, on forest and grassland range, 291
Performance of cows and calves
Creep feed as a factor influencing, 33
Performance of forage-fed lambs
Effect of monensin on the, 869
Performance of pigs
Nutrient digestibility and, fed sorghums varying in tannin concentration, 1524
Performance, reproductive
Selection for increased rate of efficiency of lean growth in rats: Correlated responses in reproductive performance, 1458
pH and moisture loss
Effect of chloride salts, acid phosphate and electrical stimulation on, from beef clod muscles, 658
Physical properties
*In vitro* and *in vivo* protein digestion in pigs fed diets containing soybean protein isolates with different, 1297
Pig
Effect of mating on the luteinizing hormone surge in the, 434
Pig, fetal
Adipose tissue development in the, after decapitation, 1634
Pig, growing
Dietary fiber and antibiotic interactions on nutritional and metabolic parameters in the, 1309
Pig, neonatal
Effect of maternal dietary energy source on glucose homeostasis, liver glycogen and carcass lipid in the, 1316
Pig performance, nursery
Effect of flooring material and number of pigs on, 863
Piglet performance
Estrus and fertility in lactating sows and, as influenced by limited nursing, 1419
Piglets, survival in
Effects of maternal starvation on some blood metablites, liver glycogen, birth weight and, 1504
Pigs
Antibody response and serum protein and immunoglobulin in, from sows fed different protein sequences during gestation and lactation, 1262
Effects of cold and weaning stressors on the antibody-mediated immune response of, 439
*In vitro* and *in vivo* protein digestion in, fed diets containing soybean protein isolates with different physical properties, 1297
Metabolic actions of growth hormone in, 363
Nutrient digestibility and performance of, fed sorghums varying in tannin concentration, 1524
Pigs, early-weaned
Influence of the partial replacement of milk protein by soybean protein isolates with different physical properties on the performance and nitrogen digestibility of, 1011
Nutrition and management of,: Diets for protecting rotavirus exposed pigs weaned at 7 to 5 days of age, 677
Pigs, eight-day-old
Utilization of glucose, sucrose or cornstarch with casein or isolated soybean protein supplemented with amino acids by, reared artificially, 1057
Pigs, feral and domestic newborn
Fasting plasma hormones and metabolites in, 420
Pigs, intact and cecectomized
Effects of dietary cellulose levels on, 395
Pigs, normal and stress-susceptible
Blood lactate kinetics in, 1000
Pigs, performance of
Interval to estrus in sows and, after alteration of litter size during late lactation, 177
Pigs, rotavirus-exposed
Nutrition and management of early weaned pigs: Diets for protecting, weaned at 1 to 5 days of age, 677
Pigs, 25- to 45-kg
Prediction equations for estimating the quantity of muscle, in 663
Pigs, 2-week-old weaned
Effect of starter diet and length of feeding regimen on performance and digestive enzyme activity of, 299
Pigs, weanling
Effect of dietary vitamin C addition on performance, plasma vitamin C and hematic iron status in, 1292
Pigs housed in triple deck nurseries
Flooring materials, pigs per cage and use of oats in starting diets for, 130
Pigs per cage
Flooring materials, and use of oats in starter diets for pigs housed in triple deck nurseries, 130
Pigs per pen, number of

Effect of flooring material and, on nursery pig performance, 863
Pigs weaned at 7 days of age
Utilization of corn and wheat in diets of, 683
Placement, 263, 541, 838, 1146, 1414, 1718
Placenta, retained
Effects of Caesarean section, and vaginal or uterine prolapse on subsequent fertility in beef cattle, 916
Plants and animals
As protein sources, 817
Plasma growth hormone
Prolactin and thyrotropin secretary patterns in Hereford and Simmental calves, 371
Plasma vitamin C
Effect of dietary vitamin C addition on performance, and hematic iron status in weanling pigs, 1292
Postpartum interval
Effect of once daily suckling on, and cow-calf performance of first-calf Brahman × Hereford heifers, 755
Post-thaw survival
Effect of bulk freezing straws on bovine spermatozoa in a programmed freezer on, 1432
Prediction equations
For estimating the quantity of muscle in 25- to 45-kg pigs, 663
Pregnancy rate among beef heifers
From timed insemination following synchronization with a progestin treatment, 1
Pregnant mares' serum gonadotropin (PMSG)
Effects of prostaglandin $F_2\alpha$ and, on the reproductive performance of fluorogestone acetate PMSG-treated ewes, 154
Preovulatory changes
In prostaglandins $E_2$ and $F_2\alpha$ in ovine follicles, 192
Pressure-treated tallow-protein mixtures
*In vitro* and *in vivo* evaluation of temperature and, 473
Prices paid for performance-tested boars
Comparison of selection index economic weights and, 575
Proceedings of the 73rd Annual Meeting
Of the American Society of Animal Science, 1678
Producing ability values
Effect of creep feeding bull calves on dam most probable, 567
Production in beef cows
Effects of monensin on efficiency of, 873
Production traits of swine
Estimates of genetic-pen density interactions in, 1166
Productivity, sow
Some genetic and environmental effects on, 601
Progesterone
Estrogen and progestogen binding in the myometrium of the ewe. II. Regulation by estradiol and, 1070
The relationship between breed and litter size in sheep and maternal serum concentrations of placental lactogen, estradiol and, 1077
Progestin treatment
Pregnancy rate among beef heifers from timed insemination following synchronization with a, 1
Prolactin
Age-associated changes in secretory patterns of growth hormone, and thyrotropin and the hormonal responses to thyrotropin-releasing hormone in rams, 160
Prolactin and thyrotropin
Plasma growth hormone, secretory patterns in Hereford and Simmental calves, 371
Prolactin in swine
Failure of stress and supplemental lighting to affect release of, 467
Prolapse, vaginal or uterine
Effects of Caesarean section, retained placenta and, on subsequent fertility in beef cattle, 916
Propionate
Influence of intrajugular administration of insulin, glucagon and, on voluntary feed intake of sheep, 427
Propylene glycols, butylene and
Effects of, on body composition and fatty acid synthetase in lambs, 1473
Prostaglandin $F_2\alpha$, effects of
And pregnant mares' serum gonadotropin (PMSG) on the reproductive performance of fluorogestone acetate PMSG-treated ewes, 154
Prostaglandins $E_2$ and $F_2\alpha$
Preovulatory changes in, in ovine follicles, 192
Protein and energy requirements
Contribution of mixtures of three chaparral shrubs to the, of Spanish goats, 1391
Protein, breakdown of
Effect of monensin on, by ruminal microorganisms *in vitro*, 803
Protein, degradation of
By mixed cultures of rumen bacteria: Identification of *streptococcus bovis* as an actively proteolytic rumen bacterium, 242
Protein digestion, *in vitro* and *in vivo*
In pigs fed diets containing soybean protein isolates with different physical properties, 1297
Protein levels, early and late dietary
Daily gain, feed efficiency and carcass traits of bulls as affected by, 26
Protein restriction, prepartum
Effects of, in the beef cow on immunoglobin content in blood and colostral whey and subsequent immunoglobulin absorption in the neonatal calf, 1174
Protein sequences
Antibody response and serum protein and immunoglobulin in pigs from sows fed different, during gestation and lactation, 1262
Protein, single-cell
Evaluation of, from pulp mills: Laboratory analyses and *in vivo* digestibility, 1601
Proteins, slowly degraded
Feeding value of, 1109
Protein sources
Plants and animals as, 817
Protein sources, supplemental
Feedlot performance of steers and lambs fed blood meal, meat and bone meal, dehydrated alfalfa and soybean meal as, 1198
Protein status
The effect of urea or soybean meal on the growth and, of young horses, 670
Protein supplement
Ruminal characteristics as affected by monensin,

and proportions of whole wheat corn in forage-free diets fed to finishing steers, 1377
Sunflower meal as a, for growing ruminants, 557
Protein synthesis, bacterial
Effects of monensin on site and extent of whole corn digestion and, in beef steers, 1565
Pubertal bitch
Behavioral, ovarian and endocrine relationships in the, 182
Puberty
Effects of energy and dry matter intake on age, body weight and backfat at, and on embryo mortality in gilts, 118
Pulp mills
Evaluation of single-cell protein from,: Laboratory analyses and *in vivo* digestibility, 1601

## Q

Quality grade, yield and
Beef carcass composition as influenced by, 102
Quantitative estimates of beef carcass composition
From specific gravity measurements and certain carcass traits of feedlot steers, 1246

## R

Racetrack performance, measures of
With regard to breeding evaluation of trotters, 611
Radiographic photometry
Estimation of mineral content of the equine third metacarpal by, 1019
Radioimmunoassay, homologous
Development of a, for ovine follicle stimulating hormone: Studies after estrus, ovariectomy, estradiol and releasing hormone, 730
Rams
Age-associated changes in secretory patterns of growth hormone, prolactin and thyrotropin and the hormonal responses to thyrotropin-releasing hormone in, 160
Range, forest and grassland
Diet quality and performance of cattle on, 291
Rate of passage
Intake, digestibility, ruminal characteristics and, of alfalfa diets fed to sheep, 774
Rats
Effects of ronnel on growth, endocrine function and blood measurements in steers and, 217
Nutritional evaluation of processed crambe meal for, 1278
Rats, chicks and
Utilization of the D-isomers of arginine and histidine by, 125
Rats, lean growth in
Selection for increased rate or efficiency of,: Correlated responses in reproductive performance, 1458
Rats, male growing
Intestinal absorption of D-Glucose, D-Galactose and L-Leucine in, fed a raw field bean (*Vicia faba* L.) diet, 414
Rebreeding efficiency
Effect of once-a-day nursing on, of beef cows, 889
Receptors, androgen and glucocorticoid
In porcine skeletal muscle, 80
Relationships, behavioral, ovarian and endocrine
In the pubertal bitch, 182
Relationships, genetic and phenotypic
Between pubertal and growth characteristics in gilts, 940
Repeatability of conception rate
And litter size for ewes in an accelerated lambing system, 643
Reports
From representatives of the Society, 267, 1683
Reports, Committee, 1686
Reproductive capacity of stallions
Restoration of, after suppression with exogenous testosterone, 1351
Reproductive function
Selenium and, in boars fed a low selenium diet, 1360
Reproductive performance
Effects of prostaglandins $F_2\alpha$ and pregnant mares' serum gonadotropin (PMSG) on the, of fluorogestone acetate PMSG-treated ewes, 154
Reproductive performance of gilts
Bred on first *versus* third estrus, 19
Reproductive performance of the bovine
The influence of early age mastectomy and unilateral ovariectomy on, 171
Response, *in vitro*
Diminution of the, to luteinizing hormone by corpora lutea induced by gonadotropin releasing hormone treatment of postpartum suckled beef cows, 749
Response of pigs, antibody-mediated immune
Effects of cold and weaning stressors on the, 439
Review, a
Supplemental dietary fat for peripartal sows, 107
Ronnel, effects of
On growth, endocrine function and blood measurements in steers and rats, 217
Rotavirus-exposed pigs
Nutrition and management of early-weaned pigs: Diets for protecting, weaned at 1 to 5 days of age, 677
Roughage component, a
Utilization of whole aspen tree material as, in growing cattle diets, 551
Roughage, low quality
Effect of level and form of supplemental energy and nitrogen on utilization of, by sheep, 479
Roughage value index system
Assessing minimum amounts and form of roughages in ruminant diets:, 1406
Roughages in ruminant diets
Assessing minimum amounts and form of,: Roughage value index system, 1406
Rumen bacteria
Degradation of protein by mixed cultures of,: Identification of *streptococcus bovis* as an actively proteolytic rumen bacterium, 242
Rumen bacteria, oxalate degrading
Selection of, in continuous cultures, 810
Rumen bacterium, proteolytic
Degradation of protein by mixed cultures of rumen bacteria: Identification of *streptococcus bovis* as an actively, 242
Rumen fermentation

Influence of viable yeast culture, sodium bicarbonate and monensin on liquid dilution rate, and feedlot performance of growing steers and digestibility in lambs, 780
Ruminal characteristics
As affected by monensin, type of protein supplement and proportions of whole wheat corn in forage-free diets fed to finishing steers, 1377
In steers as affected by adaptation from forage to all-concentrate diets, 1383
Intake, digestibility, and rate of passage of alfalfa diets fed to sheep, 774
Ruminal microorganisms *in vitro*
Effect of monensin on breakdown of protein by, 803
Ruminants
Citrus condensed molasses solubles as an energy source for, 253
Ruminants, growing
Sunflower meal as a protein supplement for, 557

## S

Season of year
Interactive effects of, and dietary fat supplementation, lysine source and lysine level on the performance of swine, 1269
Selection
For increased rate or efficiency of lean growth in rats: Correlated responses in reproductive performance, 1458
Selection, response to
For feed efficiency in individually fed Yorkshire boars, 323
Selection index economic weights
Comparison of, and prices paid for performance-tested boars, 575
Selection in swine
Reciprocal recurrent: Postweaning growth, 1446
Selenium
And reproductive function in boars fed a low selenium diet, 1360
Serum concentrations, maternal
The relationship between breed and litter size in sheep and, of placental lactogen, estradiol and progesterone, 1077
Serum cortisol
Clearance of, in suckled and nonsuckled postpartum beef cows, 1082
Serum isocitrate dehydrogenase
Ornithine decarboxylase, and clinical chemistry changes during thioacetamide-induced hepatotoxicity in a calf, 1658
Serum protein
Antibody response and, and immunoglobulin in pigs from sows fed different protein sequences during gestation and lactation, 1262
Sex
The effects of breed, diet, location and slaughter weight on lamb growth, carcass composition and meat flavor, 376
Sex, influence of breed and
Effect of level of energy and influence of, on growth of fat tissue and distribution in the bovine carcass, 982
Sexual development of boars
Influence of prepubertal consumption of zearalenone on, 1559
Sheep
Effects of intraventricular injections of $Ca^{2+}$ and $Mg^{2+}$ on eating behavior, water intake and cardiac rhythm in, 317
Effect of level and form of supplemental energy and nitrogen on utilization of low quality roughage by, 479
Influence of intrajugular administration of insulin, glucagon and propionate on voluntary feed intake of, 427
Intake, digestibility, ruminal characteristics and rate of passage of alfalfa diets fed to, 774
Intake, digestibility, ruminal characteristics and rate of passage of orchardgrass diets fed to, 489
Intestinal cannulation of cattle and, with a T-shaped cannula designed for total digesta collection without externalizing digesta flow, 796
Rumen and abomasal cannulation of sheep with specially designed cannulas and a cannula insertion instrument, 790
Sheep, breed and litter size in
The relationship between, and maternal serum concentrations of placental lactogen, estradiol and progesterone, 1077
Shrubs, three chaparral
Contribution of mixtures of, to the protein and energy requirements of Spanish goats, 1391
Sire, breed and environment
Influence of, on live and carcass traits of heavy lambs, 1151
Sire breed effects, terminal
Columbia and Suffolk, 1225
Sires
Interactions involving, breed of dam and age of dam for performance characteristics in Limousin cattle, 940
Slaughter and carcass characters
Characterization of cattle of a five-breed diallel. IV., Of serially slaughtered bulls, 62
Slaughter weight
The effects of breed, diet, sex, location and, on lamb growth, carcass composition and meat flavor, 376
Sludge, liquid digested
Metal residues in tissues, animal performance and carcass quality with beef steers grazing Pensacola bahiagrass pastures treated with, 146
Sodium bicarbonate
Influence of viable yeast culture, and monensin on liquid dilution rate, rumen fermentation and feedlot performance of growing steers and digestibility in lambs, 780
Sorghums
Nutrient digestibility and performance of pigs fed, varying in tannin concentration, 1524
Sow productivity
Some genetic and environmental effects on, 601
Sows
Antibody response and serum protein and immunoglobulin in pigs from, fed different protein sequences during gestation and lactation, 1262
Comparisons of specific crosses from Landrace, Duroc-Landrace and Yorkshire-Landrace, 40
Soybean hull digestibility by, and feeding value for growing-finishing swine, 138

Sows, lactating
Estrus and fertility in, and piglet performance as influenced by limited nursing, 1419
Sows, Landrace, Duroc-Landrace and Yorkshire-Landrace
Comparisons of specific crosses from, 40
Sows, peripartal
Supplemental dietary fat for,: A review, 107
Soybean hull digestibility by sows
And feeding value for growing-finishing swine, 138
Soybean meal
Bioavailable pantothenic acid in cereal grains and, 403
Effect of graded levels of, and of a nonprotein nitrogen molasses supplement on consumption and digestibility of wheat straw, 1609
Feedlot performance of steers and lambs fed blood meal, meat and bone meal, d-hydrated alfalfa and, as supplemental protein sources, 1198
*In vitro* digestion of, treated with formaldehyde, 1616
The effect of urea or, on the growth and protein status of young horses, 670
Soybean protein, isolated
Utilization of glucose, sucrose or cornstarch with casein or, supplemented with amino acids by eight-day-old pigs reared artificially, 1027
Soybean protein isolates
*In vitro* and *in vivo* protein digestion in pigs fed diets containing, with different physical properties, 1297
Influence of the partial replacement of milk protein by, with different physical porperties on the performance and nitrogen digestibility of early-weaned pigs, 1011
Space allowance
Effects of group size and, on performance and behavior of swine, 922
Specific gravity measurements
Quantitative estimates of beef carcass composition from, and certain carcass traits of feedlot steers, 1246
Spermatogenesis in Holstein bulls
Testicular development and establishment of, 1645
Spermatozoa, bovine
Effect of bulk freezing of straws on, in a programmer freezer on post-thaw survival, 1432
Spermatozoal motility
Comparisons of computer evaluation of, with standard laboratory tests and their use for predicting fertility, 1368
Spermatozoa, number of
Effects of thawing temperature, and spermatozoal quality on fertility of bovine spermatozoa packaged in .5-ml French straws, 693
Stallions
Restoration of reproductive capacity of, after suppression with exogenous testosterone, 1351
Standard laboratory tests
Comparison of computer evaluations of spermatozoal motility with, and their use for predicting fertility, 1368
Starch supplementation
Sulfur, nitrate and, of tall fescue for the ovine, 1135
Steer diets, growing-finishing
Fresh chopped sugar cane in, 881
Steer performance
On coastal, Callie and other hybrid bermudagrasses, 1188
Steers
Abomasal nutrient infusion of, fed weathered prairie hay, 1401
Characterization of biological types of cattle (Cycle II.) IV. Postweaning growth and feed efficiency of, 332
Nutrient digestibility depressions in corn silage-corn grain mixtures fed to, 1095
Ruminal characteristics in, as affected by adaptation from forage to all-concentrate diets, 1383
Steers and lambs, feedlot performance of
Fed blood meal, meat and bone meal, dehydrated alfalfa and soybean meal as supplemental protein sources, 1198
Steers and rats
Effects of ronnel on growth, endocrine function and blood measurements in, 217
Steers, Charolais and Angus
Slaughtered at equal percentages of mature cow weight. II. Empty body composition, energetic efficiency and comparison of compositionally similar body weights, 898
Steers, feedlot
Quantitative estimates of beef carcass composition from specific gravity measurements and certain carcass traits of, 1246
Steers, finishing
Ruminal characteristics as affected by monensin, type of protein supplement and proportions of whole wheat corn in forage-free diets fed to, 1377
Steers, forage-and grain-finished
Effect of electrical stimulation on carcass quality and meat palatability of beef from, 651
Steers, growing
Influence of viable yeast culture, sodium bicarbonate and monensin on liquid dilution rate, rumen fermentation and feedlot performance of, and digestibility in lambs, 780
Straws, effect of bulk freezing
Of bovine spermatozoa in a programmed freezer on post-thaw survival, 1432
*Streptococcus bovis*
Degradation of protein by mixed cultures of rumen bacteria: Identification of, as an actively proteolytic rumen bacterium, 242
Stress
Effect of physical form of the diet and, on carcass characteristics of lamb, 1489
Stress and supplemental lighting
Failure of, to affect release of prolactin in swine, 467
Stress-susceptible pigs
Blood lactate kinetics in normal and, 1000
Style and form
Effective January 1, 1982, 845
Suckling, once daily
Effect of, on postpartum interval and cow-calf performance of first-calf Brahman × Hereford heifers, 755
Sucrose
Utilization of glucose, or cornstarch with casein or iolated soybean protein supplemented with

amino acids by eight-day-old pigs reared artificially, 1027
Sugar cane, fresh chopped
In growing-finishing steer diets, 881
Sulfur
Nitrate and starch supplementation of tall fescue for the ovine, 1135
Sunflower hulls, effect of
On large intestine function in finishing swine, 1286
Sunflower meal
As a protein supplement for growing ruminants, 557
Sunflower or alfalfa-grass silage
Laboratory investigations of hydroxide-treated, 1623
Suppression with exogenous testosterone
Restoration of reproductive capacity of stallions after, 1351
Swine
Reciprocal recurrent selection in,: Postweaning growth, 1446
Vitamin E for, 1039
Swine, artificailly infected
Anthelmintic activity of albendazole against adult *metastrongylus apri* in, 1511
Swine, behavior of
Effects of group size and space allowance on performance and, 922
Swine, finishing
Effect of sunflower hulls on large intestine function in, 1286
Swine, growing-finishing
Performance of, fed high levels of alfalfa meal: Effects of alfalfa level, dietary additives and antibiotics, 308
Soybean hull digestibility by sows and feeding value for, 138
Value of peanut skins (testa) as a feed ingredient for, 1006
Swine, lean and obese
Fatty acid composition of adipose tissue from, 977
Swine, maternal effects in
Using diallel matings to estimate combining abilities and, 629
Swine, mineralization in
Bone strength as a trait for assessing,: A crticial review of techniques involved, 827
Swine, neonatal
The effects of floor temperature, supplemental heat and drying at birth on, 1424
Swine, performance of
Interactive effects of season of year and dietary fat supplementation, lysine source and lysine level on the, 1269
Swine, production traits of
Estimates of genetic-pen density interactions in, 1166
Swine, prolactin
Failure of stress and supplemental lighting to affect release of, 467
Swine, Yorkshire
Selection for increased leanness of, III. Inbreeding effects on secondary traits, 620
Synchronization
Of ewes during anestrus: Influence of time of year and interval to onset of estrus on conception rate, 448
Pregnancy rate among beef heffers from timed insemination following, with a progestin treatment, 1
Syndrome, slow release
Liver vitamin A, in cattle with a multiple nutrient imbalance, 758

## T

Tallow-protein mixtures
*In vitro* and *in vivo* evaluation of temperature and pressure-treated, 473
Tannin concentration
Nutrient digestibility and performance of pigs fed sorghums varying in, 1524
Techniques
Bone strength as a trait for assessing mineralization in swine: A critical review of, involved, 827
Temperature, elevated ambient
Serum luteinizing hormone and testosterone in bulls during exposure to, 1551
Temperature, evaluation of
*In vitro* and *in vivo*, and pressure-treated tallow protein mixtures, 473
Temperature, floor
The effects of, supplemental heat and drying at birth on neonatal swine, 1424
Temperature, thawing
Effects of, number spermatozoa and spermatozoal quality on fertility of bovine spermatozoa packaged in .5-ml French straws, 693
Terminal sire, Columbia and Suffolk
Breed effects, 1225
Testicular development
And establishment of spermatogenesis in Holstein bulls, 1645
Testosterone
Serum luteinizing hormone and, in bulls during exposure to elevated ambient temperature, 1551
Testosterone, exogenous
Restoration of reproductive capacity of stallions after suppression with, 1351
Testosterone response
Effect of unilateral castration and unilateral cryptorchidism on gonadotropin and, to gonadotropin releasing hormone in the bull, 1341
Thyrotropin
Age-associated changes in secretory patterns of growth hormone, prolactin and, and the hormonal responses to thyrotropin-releasing hormone in rams, 160
Thyrotropin secretory patterns
Plasma growth hormone, prolactin and, in Hereford and Simmental calves, 371
Tissue, adipose
Fatty acid composition of, from lean and obese swine, 977
Tissue development, adipose
In the fetal pig after decapitation, 1634
Tissue gain and carcass merit
Effect of diethylstilbestrol on, of feedlot beef steers, 589

Tissues, metal residues in
Animal performance and carcass quality with beef steers grazing Pensacola bahiagrass pastues treated with liquid digested sludge, 146
Traits, growth and carcass
Heritabilities for, estimated from data on Herefords under commercial conditions, 49
Traits, live and carcass
Influence of sire, breed and environment on, of heavy lambs, 1151
Traits secondary
Selection for increased leanness of Yorkshire swine. III. Inbreeding effects on, 620
Transit
Influence of fasting and, on ruminal and blood metabolites in beef steers, 7
Trotters, breeding evaluation of
Measures of racetrack performance with regard to, 611
T-shaped cannula
Intestinal cannulation of cattle and sheep with a, designed for total digesta collection without externalizing digesta flow, 796

## U

Undergraduate scholarship medal winners, 273, 1416
Urea, ingestion of
Ammonia toxicity in cattle. V. Ammonia concentration of lymph and portal, carotid and jugular blood after the, 494
Urea, the effect of
Or soybean meal on the growth and protein status of young horses, 670
Urea, utilization of
Uric acid and caged layer waste by ruminal microorganisms continuously cultured *in vitro*, 1581
Uric acid
Utilization of urea, and caged layer waste by ruminal microorganisms continuously cultured *in vitro*, 1581

## V

Vitamin C addition, dietary
Effect of, on performance, plasma vitamin C and hematic iron status in weanling pigs, 1292
Vitamin E
For swine, 1039

## W

Waste, caged layer
Utilization of urea, uric acid and, by ruminal microorganisms continuously cultured *in vitro*, 1581
Water deprivation
Influence on beef steers of two sequential short periods of feed and, 907
Water intake
Effects of intraventricular injections of $Ca^{2+}$ and(or) $Mg^{2+}$ on eating behavior, and cardiac rhythm in sheep, 317
Weaning stressors
Effects of cold and, on the antibody-mediated immune response of pigs, 439
Weight, weaning
Additive and multiplicative correction factors for sex and age of dam in beef cattle, 1217
Wheat straw
Effect of graded levels of soybean meal and of a nonprotein nitrogen molasses supplement on consumption and digestibility of, 1609
Whey, colostral
Effects of prepartum protein restriction in the beef cow on immunoglobin content in blood and, and subsequent immunoglobulin absorption by the neonatal calf, 1174

## Y

Yeast culture, viable
Influence of, sodium bicarbonate and monensin on liquid dilution rate, rumen fermentation and feedlot performance of growing steers and digestibility in lambs, 780
Yield and quality grade
Beef carcass composition as influenced by, 102
Ytterbium chloride
Comparison of, and chromium sesquioxide as fecal indicators, 1629

## Z

Zearalenone
Influence of prepubertal consumption of, on sexual development of boars, 1559
Zeranol, effects of
On growth and ease of calf delivery in beef heifers, 1325
